Full of fascinating characters, adventure, and excitement, it also deals truthfully with the hard lessons learned about the future of hunting in Africa. This is a day by day description of the events, places, and people who make the safari industry work in Zimbabwe. If you're tired of reading the same old books from the professional hunting writers, stories filled with technical details but no passion for the hunt or for Africa, then this is a book for you. If you want to know what really happens behind the scenes in order for a safari to occur, then this is a book for you. You'll travel the bush with the author, getting to know the professional hunters and clients, company employees, local villagers, and learn just how much work it takes to run a safari operation in a third world country. Fuel shortages, poaching, war, vets seizing property, broken rifles, snakes, charging elephants, and wounded buffalo were all in a day's work. This is a rare look at the behind the scenes efforts to make a client's dreams come true. This deluxe paperback features non-stop action observations on the current political situation in Zimbabwe, as well as the stories of citizens forced to deal with the realities of life in Africa.
