

The Pearl Harbor Naval Shipyard Apprentice Program is a successful partnership between the shipyard, the U.S. Department of Labor and Honolulu Community College. Graduating apprentices earn an Associate's Degree in Applied Trades, and a certificate from the DOL.

The program includes:

- Full-time employment
- Hands-on training
- A tuition-free, Applied Trades

During the four-year program each apprentice receives a minimum of 7,200 hours of training in 3 areas:

Accepting applications now through March 20, 2023.

*Only the first 2,500 applications will be accepted

Two Navies Divided Brian Lavery,2025-04-22 The title is derived from George Bernard Shaw s comment that England and America are two countries divided by a common language It is not intended to imply that the two navies were seriously at odds with one another but rather to suggest as in the case of language that common roots and usages varied significantly And the Second World War is a pertinent moment for comparison They fought on the same side against a common enemy for nearly four years but Britain fought the war for the survival of itself and its empire though in the long term it failed with the latter while the American government fought to maintain its influence through the balance of power its people fought for revenge for Pearl Harbor and out of a sense of justice In this new book Brian Lavery describes and analyzes the differences and similarities between the two navies and in doing so sheds fascinating light on how the naval war was fought For example both navies had spectacular failures after entering the war the Royal Navy off Norway the USN at Pearl Harbor and Savo Island Paradoxically both commenced the war with quite amateur performances by professional navies and ended with highly skilled performances by largely amateur manned forces The training systems for regular officers had flaws in both countries In Britain entry was largely dependent on family income in America on political influence But American officers probably had a broader perspective by the time they entered active service The book covers ships and weapons systems for instance the British used too many gun types in the 4 to 6in range while the Americans concentrated on the well designed 5in And the author describes conditions onboard ships British vessels were awash with alcohol which had its attractions for Americans when alongside the Americans offered ice cream in return These examples represent only a tiny proportion of the subjects covered in this stimulating analysis Aviation the marines of both navies anti submarine and mine warfare uniforms propulsion systems shipbuilding and building programs commanders and national leaders ratings and officers ship design geographical environments naval bases hammocks and bunks the deployment of women these are among the myriad big and small themes that will open the eyes of naval historians and enthusiasts and show anyone with an interest in the Second World War how these two great allies came together to defeat the Axis forces

Handbook of Theories of Aging Vern L. Bengtson, Vern L. Bengtson, PhD, Richard Settersten, 2016-05-28 This state of the art handbook will keep researchers and practitioners in gerontology abreast of the newest theories and models of aging With virtually all new contributors and content this edition contains 35 chapters by the most highly respected luminaries in the field It addresses theories and concepts built on cumulative knowledge in four disciplinary areas biology psychology social sciences and policy and practice as well as landmark advances in trans disciplinary science With its explicit focus on theory the handbook is unique in providing essential knowledge about primary explanations for aging spanning from cells to societies The chapters in the third edition place a strong emphasis on the future of theory development assessing the current state of theories and providing a roadmap for how theory can shape research and vice versa in years to come Many chapters also address connections between theories and policy or practice Each set of authors has been asked to consider how theories in their area address matters of diversity and inequalities in aging and how theories might be revised or tested with these matters in mind The third edition also contains a new section Standing on the Shoulders of Giants which includes personal essays by senior gerontologists who share their perspectives on the history of ideas in their fields and on their experiences with the process and prospects of developing good theory Hallmarks of the Third Edition Highlights important gains in trans disciplinary theories of aging Emphasizes the future of theory development Provides insight on theory development from living legends in gerontology Examines what human diversity and inequality mean for aging theories Emphasizes interconnections between theory research intervention and policy Underscores international issues with greater representation of international authors Includes section introductions by the editors and associate editors that summarize theoretical developments Key Features Highlights variability and diversity in aging processes from the cellular level of biological aging to the societal level of public policy Provides insight on theory development from living legends in gerontology Offers intergenerational interdisciplinary and international perspectives Disseminates a forward thinking future oriented focus in theory development

The Craft of Wargaming Jeffrey Appleget, Robert Burks, Frederick Cameron, 2020-09-01 The Craft of Wargaming is designed to support supervisors planners and analysts who use wargames to support their organizations missions The authors focus on providing analysts and planners with a clear methodology that allows them to initiate design develop conduct and analyze wargames Built around the analytic wargaming construct organizations or individuals can easily adapt this methodology to construct educational and experiential wargames The book breaks the wargame creation process into five distinct phases Initiate Design Develop Conduct and Analyze For each phase the authors identify key tasks a wargaming team must address to have a reasonable chance at designing developing conducting and analyzing a successful wargame While these five stages are critical to the process of constructing any wargame it should be understood that the craft of wargaming is learned through

active participation not by reading or watching This craft must be practiced as part of the learning process and the included practical exercises provide an opportunity to experience the construction of an analytical wargame The authors also discuss critical supervisory tasks that are essential to manage the wargaming team s efforts While the creators are focused on the design and development of the game itself supervisors must set conditions for the wargame to be a success best practices and beware of the pitfalls that may set the wargame up to fail worst practices The book demonstrates using the analytical wargaming framework to create relevant and useful planning wargames It also reinforces using the analytical wargaming framework for seminar wargames that without rigor are useless The book demonstrates the benefits of using the analytical wargaming process to design educational and experiential games **American Machinist** ,1916 The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces ,1913 *Sea Power* E.B. Potter,2014-06-15 A classic work widely acknowledged over the past 20 years as the definitive text on its subject All aspects of over 2 000 years of naval history are covered from Greek and Roman galley warfare to Vietnam and beyond with emphasis on the evolution of strategy tactics and weapons development With 14 authors it is not so much a symposium as a continuous narrative Acclaimed historians such as James C Bradford Henry H Adams and Craig Symonds lend their expertise to the work which continues to serve as a standard for any historical study of the role of navies on history **Congressional Record** United States. Congress,1993 **USS Missouri** ,1998 A short history and many stories from veterans including photos **The Apprentice Carpenter and the Trade** ,1989
