low learning efficiency in self regulated learning It follows that in the post COVID 19 era online learning puts forward new

requirements and challenges to the contemporary students not only to their learning strategies but positive character traits

in learning Most of the current learning theories were developed in the early 20th century and may not fit in well with the

current situation then possibly leading to inefficient learning and increased learning burden Therefore it is necessary and

important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels
