

Intro. to Criminal Justice 200

Chapter 3 Study Guide

Intro. to Criminological Theory

THEORY- is an assumption (or set of assumptions) that attempts to explain why or how things are related to each other

CRIMINOLOGICAL THEORY- the explanation of criminal behavior, as well as the behavior of police, attorneys, prosecutors, judges, correctional personnel, victims, and other actors in the criminal justice process

Classical Theory

CLASSICAL THEORY- a product of the Enlightenment period, or the Age of Reason, based on the assumption that people exercise free will and are thus completely responsible for their actions. Human behavior is motivated by a *hedonistic rationality* in which a person weighs the potential pleasure of an action vs. the possible pain associated with it.

- Enlightenment thinkers rejected the belief that nature or behavior was divinely ordained or predetermined
- Believed people exercised *free will* (the ability to choose any course of action) for which they were completely responsible
- Concerned with protecting human rights against corruption of legal institutions & excessive/horrible punishment (150-200 offenses in 18th Century carried death penalty)
- Crimes poorly defined, torture was routine, little consistency in application of law or punishments

Cesare Beccaria: best known classical criminologist; opposed death penalty; in 1794 his revolutionary book led to establishment of a more humane criminal law system & procedure.

Believed only legit. purpose of punishment is deterrence: special & general.

SPECIAL OR SPECIFIC DETERRENCE – prevention of the punished persons from committing crime again

GENERAL DETERRENCE- use of punishment of specific individuals to prevent people in general or society at large from engaging in crime

UTILITY- The principle that a policy should provide “the greatest happiness shared by the greatest number.”

A Beginner's Guide to Statistics for Criminology and Criminal Justice Using R Alese Wooditch, Nicole J. Johnson, Reka Solymosi, Juanjo Medina Ariza, Samuel Langton, 2021-06-03 This book provides hands on guidance for researchers and practitioners in criminal justice

and criminology to perform statistical analyses and data visualization in the free and open source software R. It offers a step by step guide for beginners to become familiar with the RStudio platform and tidyverse set of packages. This volume will help users master the fundamentals of the R programming language providing tutorials in each chapter that lay out research questions and hypotheses centering around a real criminal justice dataset such as data from the National Survey on Drug Use and Health, National Crime Victimization Survey, Youth Risk Behavior Surveillance System, The Monitoring the Future Study, and The National Youth Survey. Users will also learn how to manipulate common sources of agency data such as calls for service, CFS data. The end of each chapter includes exercises that reinforce the R tutorial examples designed to help master the software as well as to provide practice on statistical concepts, data analysis and interpretation of results. The text can be used as a stand alone guide to learning R or it can be used as a companion guide to an introductory statistics textbook such as *Basic Statistics in Criminal Justice* 2020.

Criminal Justice Ethics Sharon Hayes, 2015-03-02. It is essential for those employed within the justice system to be able to competently and confidently work at the borders between ethics and the law. *Criminal Justice Ethics* offers a fresh new approach to considering ethical issues in a criminal justice context. Rather than simply offering a range of ethical dilemmas specific to various justice professionals, it provides extensive discussion of how individuals develop their moral imaginations using ethical perspectives and practices both as citizens of the world and as practitioners of justice. Starting from a consideration of the major ethical theories, this book sets the framework for an expansive discussion of ethics by moving from theory to consider the just society and the role of the justice professional within it. Each chapter provides detailed analysis of relevant ethical issues and activities to engage students with the content as well as review questions which can be used for revision or examination. This book will help students to understand the various theoretical approaches to ethics, apply these understandings to issues in society and the justice process, assist in developing the ability to investigate, discuss and analyse current ethical issues in criminal justice, appreciate the diverse nature of ethical systems across cultures, outline strategies for detecting and resolving ethical dilemmas. Rich with examples and ethical dilemmas from a broad range of contexts, this book's multicultural approach will appeal not only to criminal justice educators but also to academics, students and practitioners approaching criminal justice from sociological, psychological or philosophical perspectives.

Study Guide to Psychosomatic Medicine James A. Bourgeois, Robert E. Hales, Narriman C. Shahrokh, 2010-11-01. *Study Guide to Psychosomatic Medicine* is a question and answer companion that allows you to evaluate your mastery of the subject matter as you progress through *The American Psychiatric Publishing Textbook of Psychosomatic Medicine* Second Edition. Evidence-based Crime and Justice Policy Brandon Welsh, Steven N. Zane, Daniel P. Mears, 2024 An evidence based approach to crime and justice policy can go a long way toward ensuring that the best available research is considered in decisions that bear on the public good However the term evidence based is characterized by a great deal of rhetoric Indeed there remains a marked disjuncture between calls for evidence based policy and an understanding of what it means for policy to be evidence based The calls for evidence based policy nonetheless provide a powerful foundation for propelling a movement toward bringing about rational cost effective and humane policies for the betterment of society This handbook

showcases the state of research on evidence based crime and justice policy and the challenges that impede its creation and use The volume has three core objectives to promote new and productive ways to think about evidence based policy to demonstrate how research can contribute to and guide evidence based policy in juvenile justice criminal justice and alternatives to system responses and to identify strategies that can increase reliance on evidence based policy To meet these objectives each chapter is guided by several central questions What do we know about evidence based policy and practice in crime and justice How can we improve knowledge of evidence based policy and practice How can we promote more use of evidence based policy and practice Taken as a whole the volume emphasizes the critical need for policies that are grounded in high quality research that address critical research gaps and that fully acknowledge the limitations of what extant research can do to inform policy decisions

Autism Spectrum Disorder, Developmental Disabilities, and the Criminal Justice System Nick Dubin, 2021-07-21 For autistic people who find themselves facing a criminal charge understanding how the features of autism may have contributed to their behaviour can be vital context for their defence In this insightful book Nick Dubin explores how and why autistic people get caught up in the criminal justice system He delves into what steps can be taken to prevent autistic people committing crimes and what should be done to ensure their fair and appropriate treatment if they are charged with a crime It covers everything from prevention to the aftermath of sentencing including available counselling and therapy Nick's personal experience and meticulous research shows that criminal justice can be an oppressive system that misunderstands and stigmatizes autistic people especially low risk individuals and those with less criminal responsibility
