Pearson Edexcel Past Papers 7th November 2014:

Debates in History Teaching Ian Davies, 2017-02-16 Now in its second edition *Debates in History Teaching* remains at the cutting edge of history education. It has been fully updated to take into account the latest developments in policy research and professional practice. With further exploration into the major issues that history teachers encounter in their daily professional lives, it provides fresh guidance for thinking and practice for teachers within the UK and beyond. Written by a range of experts in history education, chapters cover all the key issues needed for clear thinking and excellent professional action. This book will enable you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. *Debates* include: What is happening today in history education? What is the purpose of history teaching? What do history teachers need to know? What are the key trends and issues in international contexts? What is the role of evidence in history teaching and learning? How should you make use of ICT in your lessons? Should moral learning be an aim of history education? How should history learning be assessed? *Debates in History Teaching* remains essential reading for any student or practising teacher engaged in initial training, continuing professional development or Master's level study.

40 Ways to Diversify the History Curriculum Elena Stevens, 2022-07-14 In writing this book, Elena Stevens' aim is to respond to calls for a more diverse, decolonised curriculum, calls which have become more insistent following the reinvigoration of the Black Lives Matter movement, the MeToo movement and other landmark events. Highlighting the lived experiences of women, the working classes and BAME and LGBTQ communities in particular, *40 Ways to Diversify the History Curriculum* draws upon a wide range of personal stories to exemplify significant historical moments and shed new light on topics that have traditionally been taught through narrower lenses. The book serves as a resource bank for teachers wishing to enliven and diversify history lessons at Key Stages 2, 3, GCSE, A level and beyond. Elena helpfully opens with a discussion of the theoretical, historiographical developments that lay behind calls to diversify the curriculum and to accompany each of the 40 historical case studies, she provides ideas and activities for translating the case studies into lesson plans and enquiries. Furthermore, Elena also guides teachers in shaping new enquiries from scratch. Suitable for teachers of secondary school and Key Stage 2 history.
