Pearson History And Geography Grade 6:

The Subaltern Speak Michael W. Apple, Kristen L. Buras, 2013-01-11 The question of whose perspective experience and history is privileged in educational institutions has shaped curriculum debates for decades In this insightful collection Michael W Apple and Kristen L Buras interrogate the notion that some knowledge is worth more than others The Subaltern Speak combines an analysis of the ways in which various forms of power now operate with a specific focus on spaces in which subaltern groups act to reassert their own perceived identities cultures and histories Handbook of Cultural Politics and Education ,2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The Handbook of Cultural Politics and Education is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education s place within society The contributions in the collection support this endeavor **Rightist Multiculturalism** Kristen L. Buras, 2010-11-24 In this groundbreaking book Kristen Buras provides the first detailed critical examination of the Core Knowledge movement and explores the history and cultural politics underlying neoconservative initiatives in education *Critical Schooling* Francisco J. Villegas, Janelle Brady, 2018-12-18 This edited volume brings to the foreground the inequities of contemporary schooling in Canada The editors and authors perform a critical examination of the Canadian schooling space highlighting the agency and action of marginalized communities and their efforts to address injustice within contexts of schooling Grounded in the unique perspective of each author this book provides a venue for transformative practice to create inclusive and socially just contexts for diverse populations specifically as experienced by peoples who inhabit the intersections of various modes of oppression *Reading Actively in Middle Grade Social Studies* Don K. Philpot, 2019-08-14 Middle grade students can learn a great deal about themselves and their world by reading informative texts in social studies courses These texts will focus on important topics in history geography civics government and economics and offer students a range of perspectives on past and present social events But reading is a complex act and most students need specific reading related support to understand assigned texts in middle grade social studies courses This book focuses on the cyclical nature of reading the actions proficient readers engage in to understand social studies textbooks

and other informational texts and the instructional support that teachers can provide to enhance middle grade students learning of social studies content through reading Three associated questions will be addressed in this book What actions do proficient readers engage in to understand assigned course texts What do these actions entail and how do they relate to each other What teacher mediated practices best support middle grade students development as proficient readers and enhance their learning of course content through reading
