Fundamentals of the Science and Treatment of Psychological Disorders, with eBook Access Code Sheri L. Johnson,Ann M. Kring,2025-10-21 A REFINED FOCUSED APPROACH TO LEARNING PSYCHOPATHOLOGY Adapted from the 16th edition of Kring and Johnson s popular text The Science and Treatment of Psychological Disorders this Fundamentals version offers a streamlined textbook that maintains the strengths of the traditional text Johnson and Kring continue to bring to light cutting edge research which they balance against clinical understanding Throughout they strive to provide clear prose helpful examples of clinical cases to illustrate symptoms and treatments and up to date scientific

coverage of issues that are front and center in current media such as opioids and vaping and digital mental health. With a shorter, more focused text, the authors give learners a solid foundation in psychopathology. They emphasize an integrative approach showing how psychopathology is best understood by considering multiple perspectives: biological, cognitive, behavioral, and socio-emotional, and how these varying perspectives can provide us with the clearest accounting of the causes of these disorders. For each disorder, they provide learners with an understanding of the best supported biological and psychological treatments so that learners come away with the latest science on what works and for whom. Critical issues in how race, culture, and country of origin are considered. The final chapter of the book covers important legal and ethical issues in the mental health field. The importance of stigma and mental illness is discussed throughout the book, never is this more important than now when many social ills are too easily blamed on mental illness, e.g., gun violence, while we continue to warehouse people with mental illness in jails at an astonishing rate.

In addition, each video provides concise information about the available treatment options and commentary from a mental health professional. Each video is presented in the context of a Pause and Ponder activity with the following elements:

- Part I: Pause.** Readers are asked to read several short examples of everyday life situations facing a person or people with a particular disorder and assess their own ability to empathize.
- Part II: Learn.** Readers are directed to view the Case Study Video and answer a series of questions with interactive self-scoring.
- Part III: Ponder.** Finally, readers are asked to respond to one or more open-ended questions and to reassess their ability to empathize.
