*Practical and Theoretical Geoarchaeology* Paul Goldberg,Richard I. Macphail,Chris Carey,Yijie Zhuang,2022-09-13 *Practical and Theoretical Geoarchaeology* Second Edition provides an invaluable and vastly updated overview of geoarchaeology and how it can be used effectively in the study of archaeological sites and contexts Taking a pragmatic and functional approach this book presents a fundamental broad based perspective of the essentials of modern geoarchaeology in order to demonstrate the breadth of the approaches and the depth of the problems that it can tackle the rapid advances made in the area in recent years but also gives the reader a firm grasp of conventional approaches covers traditional topics with the emphasis on landscapes as well as anthropogenic deposits and site formation processes and their investigation provides guidelines for the presentation of field and laboratory methods and the reporting of geoarchaeological results essential reading for archaeology undergraduate and graduate students practicing archaeologists and geoscientists who

need to understand and apply geoscientific methodologies and help foster the dialog among diverse researchers investigating archaeological sites Practical and Theoretical Geoarchaeology Second Edition is an ideal resource for undergraduate and graduate students in archaeology and a great practical reference for practicing archaeologists and geoscientists who need to understand and apply geoscientific methodologies internationally

Earth System Law: Standing on the Precipice of the Anthropocene Timothy Cadman, Margot Hurlbert, Andrea C. Simonelli, 2021-12-13 This book systematically explores the emerging legal discipline of Earth System Law ESL challenging the closed system of law and marking a new era in law and society scholarship Law has historically provided stability certainty and predictability in the ordering of social relations predominantly between humans However in recent decades the Earth's relationship in law has changed with increasing recognition of the standing of Mother Earth inherent rights of the environment such as flora and fauna rivers and now recognition of the multiple relations of the Anthropocene This book questions the fundamental assumption that the law only applies to humans and that the earth as a system has intrinsic rights and responsibilities In the last ten years the planet has experienced its hottest period since human evolution and by the year 2100 unless substantive action is taken many species will be lost and planetary conditions will be intolerable for human civilisation as it currently exists Relationships between humans the biosphere and all planetary systems must change The authors address these challenging topics setting the groundwork of ESL to ensure sustainable development of the coupled socio ecological system that the Earth has become Earth System Law is an interdisciplinary and transdisciplinary research project and as such this book will be of great interest to researchers and stakeholders from a wide range of disciplines including political science anthropology economics law ethics sociology and psychology
