Pearson's Magazine, 1919 Pearson's Magazine 1899-1925 a monthly magazine devoted to literature politics and the arts was founded as a New York affiliate of the London periodical of the same name part of which it reprinted From 1916 to 1923 it was edited by Frank Harris *Architects of World History* Kenneth R. Curtis, Jerry H. Bentley, 2014-02-05 Architects of World History presents an innovative collection of original essays by leading scholars associated with World History exploring through intellectual autobiography the ideas challenges and inspirations that are shaping the field Features original accessible contributions from pioneering scholars in the field Offers insights into the process of developing a workable world history research topic and the experience of professional life as a world historian Points to methodological challenges the scholar's current research agenda in relation to the development of world history and future directions anticipated for key areas within world history **Drawing the Global Colour Line** Marilyn Lake, Henry Reynolds, 2008-01-24 In 1900 W E B DuBois prophesied that the colour line would be the key problem of the twentieth century and he later identified one of its key dynamics the new religion of whiteness that was sweeping the world Whereas most historians have confined their studies of race relations to a national framework this book studies the transnational circulation of people and ideas racial knowledge and technologies that underpinned the construction of self-styled white men's countries from South Africa to North America and Australasia Marilyn Lake and Henry Reynolds show how in the late nineteenth century and early twentieth century these countries worked in solidarity to exclude those they defined as not white actions that provoked a long international struggle for racial equality Their findings make clear the centrality of struggles around mobility and sovereignty to modern formulations of both race and human rights Never Give In Stephen Mansfield, 1997-01-01 Churchill A Giant Among Leaders According to Henry Kissinger Our age finds it difficult to come to grips with Churchill The political leaders with whom we are familiar generally aspire to be superstars rather than heroes The distinction is crucial Superstars strive for approbation heroes walk alone Superstars crave consensus heroes define themselves by the judgment of a future they see it as their task to bring about Superstars seek success in a technique for eliciting support heroes pursue success as the outgrowth of their inner values Winston Churchill is a hero In this incisive look at his leadership in action we see what it was that enabled him to do what few others have ever accomplished in the long annals of history stand for principle and prevail **Chicago's Mansions** John Graf, 2004-12-01 Chicago is known throughout the world for its architecture Although many people are familiar with the city's skyscrapers and public buildings they often overlook or are unaware of Chicago's mansions that are located throughout the city These mansions represent

Chicagos past and its future and it can even be said that they are the very embodiment of Chicago and its architecture These fashionable residences were built to make a statement and what better way to have done this than to employ the leading architects of the time to design them These architects included men such as Louis Sullivan Frank Lloyd Wright Henry Hobson Richardson Daniel Burnham and John Wellborn Root While the citys mansions are significant because of who built them they are just as important because of who lived in them Many of these mansions were built for Chicagos elite businessmen and captains of industry men who represented old money new money and big money Just as important were the families of these men and the other residents who came to live in these mansions for they left a legacy of their own that contributed to the citys history [MyWorld Interactive](#) Frank Karpiel, George F.
