Sauces A Global History Reaktion Books Edible:

Sauces Maryann Tebben, 2014-09-15 Where would eggs benedict be without hollandaise spaghetti without Bolognese tortilla chips without salsa or French fries without ketchup A world without sauces is a dull and dry world indeed But what exactly are sauces How did they become a crucial element in every country's cuisine Maryann Tebben answers these questions in this flavorful history giving sauces their due as a highly debatable but essential part of our culinary habits Tebben begins in fifth century China with its many fermented sauces then follows them along trade routes from East to West as they become a commodity and helped seafarers add flavor to their rations Tracing the evolution of food technology she explores the development of the art of sauce creation and examines the foams ices and smokes barely recognizable as sauces that are found in the increasingly popular world of molecular gastronomy Tebben also investigates the many controversies that have sprung up around sauces how salsa has overtaken ketchup in popularity in the United States and how British Worcestershire sauce actually originated in India and offers tantalizing historical comparisons such as that between ketchup and Tabasco A charming look at the source of soy sauce mole beurre blanc and more Sauces will please expert chefs and novice sauciers alike

Edible Insects Gina Louise Hunter, 2021-09-16 From grasshoppers to grubs an eye opening look at insect cuisine around the world An estimated two billion people worldwide regularly consume insects yet bugs are rarely eaten in the West Why are some disgusted at the thought of eating insects while others find them delicious *Edible Insects A Global History* provides a broad introduction to the role of insects as human food from our prehistoric past to current food trends and even recipes On the menu are beetles butterflies grasshoppers and grubs of many kinds with stories that highlight traditional methods of insect collection preparation consumption and preservation But we not only encounter the culinary uses of creepy crawlies across many cultures We also learn of the potential of insects to alleviate global food shortages and natural resource overexploitation as well as the role of world class chefs in making insects palatable to consumers in the West

Moonshine Kevin R. Kosar, 2017-04-15 You might think moonshine only comes from ramshackle stills hidden away in the Appalachian Mountains but the fact of the matter is we've been improvising spirits all around the world for centuries No matter where you go there is a local bootleg liquor whether it's bathtub gin peatreek or hjemmebrent In this book Kevin R. Kosar tells the colorful and at times blinding history of moonshine a history that's always been about the people from crusading lawmen and clever tinkerers to sly smugglers and ruthless gangsters from pontificating poets and mountain men to beleaguered day laborers and foolhardy frat boys Kosar first surveys all the things we've made moonshine from including grapes grains sugar tree bark horse milk and much more But despite the diversity of its possible ingredients all moonshine has two characteristics it is extremely alcoholic and it is in most places illegal Indeed the history of DIY distilling is a history of criminality and the human ingenuity that has prevailed out of officials' sights from cleverly designed stills to the secret smuggling operations that got the goods to market Kosar also highlights the dark side completely unregulated many
