This book explains how and why to get an international library job, what to expect when you arrive in your host country and how to overcome challenges in your new home. For those who possess an ALA accredited degree, there are opportunities to work in library settings around the world and many of these attractive career options do not require non-English language skills or an EEC Commonwealth citizenship. This guide to library work in countries outside the United States and Canada explains the benefits of taking on a library position in an international setting, how to find such a job, what to expect in working in a library outside of North America, and what strategies to employ to be successful and happy living and working in your host country. This guide answers all the questions that a librarian considering a position abroad would have and it also covers subjects and concerns that might not be as obvious. Based on the direct experiences of the authors as well as anecdotal accounts from other librarians who have worked around the world, the book informs readers about common cultural differences with the application and interview process, explains how workplaces and working assumptions can be different from American expectations, profiles the different procedures, collection scope, curricular support, and intellectual freedom policies of libraries outside the United States and Canada, and describes the unique experience of moving to another country and living as an expat.

The Arab Lobby and the US Dania Koleilat Khatib, 2015-10-23. All the components needed to construct an Arab lobby exist: the significant Arab Diaspora in the US, the historic strategic relationship between Arab Gulf States and the US, and the Gulf's economic wealth. However, lobbying is alien to Arab culture and largely absent from its political landscape.
