

## SCANTRON Model 888P+

The Scantron Model 888P+ is an optical mark reader (OMR) and is faster (scores 2000 tests per hour) and very quiet when compared to the 888 model. This scanner is a standalone machine and is not connected to any computer or printer. When feeding test forms through this scanner, test results are stamped on each individual form. This scanner approach does not provide a gradebook function nor does it provide a detailed printout of the results. See document ACS-233 to learn more about ParScore – a gradebook and test scoring software program available at the ACS Service Desk in L45-371.

### Basic Functions

#### Test Scoring - Both Sides Now

Using both sides of a Scantron form, this scanner can score and error mark objective and performance-based tests of up to 100 questions at a rate of 30 to 40 forms per minute.

#### Percentage and Raw Score

You can print the total number of correct answers as a raw score or percentage and raw score.

#### Combines Objective and Performance Based Scores

You have the option to combine subjective (essays, special projects, homework, and oral exams) with objective scoring (true/false, multiple choice, and matching). It automatically combines these results into a single raw and/or percentage score of up to 150 points.

#### Printing Correct Answers

You can use either the standard error mark to indicate a wrong answer or you can have the correct answer printed next to the student's wrong answers.

#### Item Analysis

You have the option to print an item analysis with class average using Scantron Form No. 9700. It prints the number of tests processed, number of students answering each question incorrectly and an average score.

#### Printing Rosters

You have the option to print roster scores using Scantron Form No. 9601. This printout is dependent upon the order in which the student forms are processed.

#### Printing Serial Numbers

You have the choice of printing serial numbers on each of the student forms.

#### Ballot Counting and Survey Tabulation

Counts selections for individual candidates and survey items. You have the option to print the election results on an Election Results Tally Sheet Form No. 9871.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
