*Vision and Sight - Eye Care the Natural Way* Dueep Jyot Singh,John Davidson,2015-12-09 Table of Contents Introduction Eye problem Symptoms How Does Vision Work Common Ailments Due To Age Presbyopia Glaucoma Cataracts Common Eye Ailments in Children Myopia Shortsightedness Hypermetropia Also Known As Hyperopia Long Sightedness Strabismus crossed Eyes Astigmatism Amblyopia Lazy Eye Eye Exercises Palming Index Finger Exercise Tips and Techniques for Healthy Eyes Proper Diet Prevention tips Proper Reading Habits Watching Television Working on Your Computer While Driving Conclusion Author Bio Publisher Introduction Eyes are one of the most precious gifts given to us by Mother Nature but being human we have the tendency of neglecting them That is because we have taken this gift for granted This book is going to give you guidelines for keeping your eyes healthy and full of vigor You may have read a large number of articles in journals about eyes and most of them are going to concentrate more about how you can beautify these windows to your soul However what is the use of all those artificial cosmetic enhancers applied on your eyes when you find your vision blurry your eyes aching and headaches brought about due to eyestrain Most of us tend to neglect the health of our eyes and take them as I said for granted because we are so used to using them that we do not bother much about their general health The moment they start aching we rub them and go to the Internet to see for any remedies which are going to stop them aching And then

we apply slices of cucumber or tea bags to those eyes which are tired in a measure to refresh them Look at us we have reached the stage when the eyes are strained and tired Instead of shutting down that strenuous work before we reach that particular stage we allow them to start aching accompanied with headaches Then we place ourselves on the nearest bed with cucumber slices teabags ice packs or anything else to give our eyes a bit of rest By the age of 40 we start finding ourselves confronted with vision problems That is the time we are going to make our rounds of the ophthalmologist and perhaps an eye specialist who is going to tell us that we need corrective spectacles We are either suffering from myopia short sight or hyperopia long sight And then you put on your prescription glasses or perhaps contact lenses And you remember to key in the number of that shop which sells you your glasses on your cell phone because you do not know when you would need another pair and when The fact is that the care of our eyes and vision should have begun much earlier Our eyes are our most precious assets and looking after them could make the crucial difference between good eyesight and a blurred one
