people who work for them at the end of 2014 Uber had over 160 000 driver partners in the United States but recognized only about 2 000 people as actual employees Davis tracks the rise of the large American corporation and the economic social and technological developments that have led to its decline The future could see either increasing economic polarization as careers turn into jobs and jobs turn into tasks or a more democratic economy built from the grass roots It s up to us
