The Impact of Natural Disasters on Systemic Political and Social Inequities in the U.S. Paul S. Adams, Geoffrey L. Wood, 2020-11-16 The Impact of Natural Disasters on Systemic Political and Social Inequities in the U S examines how natural disasters impact social inequality in the United States The contributors cover topics such as criminal justice demographics economics history political science and sociology to show how effects of natural disasters vary by social and economic class in the United States This volume studies social and political mechanisms in disaster response and relief that enable natural disasters to worsen inequalities in America and offers potential solutions

UN Intervention Practices in Iraq Kerstin Eppert, 2019-01-17 This book analyzes UN intervention discourses and practices in Iraq and develops a deconstructive approach to international interventions Hitherto most analyses of the conflict in Iraq in 2003 have established the UN s role as path dependent on the foreign policy of the US and the UK and largely portrayed it as a mediator and fervent opponent of international intervention Analyzing the UN Security Council and the later UN Assistance Mission for Iraq UNAMI from 2000 to 2010 this book undoes this path dependency and puts the UN s relationship with Iraq center stage It develops a deconstructive critical approach that identifies subject construction and reflexivity as central processes of intervention practices and concludes that non intervention is deeply connected to the stabilization of political identities and representations Using extensive primary data the book contributes a new perspective on international interventions This book will be of much interest to students of peace and conflict studies intervention and statebuilding Middle Eastern studies and International Relations

The Cultural and Political Economy of Recovery Emily Chamlee-Wright, 2010-03-03 In August 2005 the nation watched as Hurricane Katrina pummelled the Gulf Coast Residents did not just suffer the personal costs of a home that had been severely damaged or destroyed frequently they also lost their entire neighbourhood and the social systems that under normal circumstances made their lives work Katrina raised the questions of whether and how communities could solve the complex social coordination problems catastrophic disaster poses and what inhibits them from doing so Professor Chamlee Wright investigates not only the nature of post disaster recovery but the nature of the social order itself how societies are able to achieve a level of complex social coordination that far exceeds our ability to design By deploying the tools of both political economy and cultural economy the book contributes to the

bourgeoning literature on the social political and economic impact of Hurricane Katrina Through a selection of case studies the author argues that post disaster resilience depends crucially upon the discovery that unfolds within commercial and civil society The book will be of particular interest to postgraduate students and researchers in economics sociology and anthropology as well as disaster specialists *Report on the Activity of the Committee on Financial Services for the One*

Hundred Tenth Congress United States. Congress. House. Committee on Financial Services,2009 **Revisiting Targeting**

in Social Assistance Margaret Grosh,Phillippe Leite,Matthew Wai-Poi,Emil Tesliuc,2022-06-02 Targeting is a commonly used but much debated policy tool within global social assistance practice Revisiting Targeting in Social Assistance A New Look at Old Dilemmas examines the well known dilemmas in light of the growing body of experience new implementation capacities and the potential to bring new data and data science to bear The book begins by considering why or whether or how narrowly or broadly to target different parts of social assistance and updates the global empirics around the outcomes and costs of targeting It illustrates the choices that must be made in moving from an abstract vision to implementable definitions and procedures and in deciding how the choices should be informed by values empirics and context The importance of delivery systems and processes to distributional outcomes are emphasized and many facets with room for improvement are discussed The book also explores the choices between targeting methods and how differences in purposes and contexts shape those The know how with respect to the data and inference used by the different household specific targeting methods is summarized and comprehensively updated including a focus on big data and machine learning A primer on measurement issues is included Key findings include the following Targeting selected categories families or individuals plays a valuable role within the framework of universal social protection Measuring the accuracy and cost of targeting can be done in many ways and judicious choices require a range of metrics Weighing the relatively low costs of targeting against the potential gains is important Implementing inclusive delivery systems is critical for reducing errors of exclusion and inclusion Selecting and customizing the appropriate targeting method depends on purpose and context there is no method preferred in all circumstances Leveraging advances in technology ICT big data artificial intelligence machine learning can improve targeting accuracy but they are not a panacea better data matters more than sophistication in inference Targeting social protection should be a dynamic process **Rebuilding After Disasters** Gonzalo Lizarralde,Cassidy Johnson,Colin Davidson,2009-09-10 Rebuilding After Disasters emphasizes the role of the built environment in the re establishment of lives and sustainable livelihoods after disasters Expert contributors explain the principal challenges facing professionals and practitioners in the building industry **The State of Food Security and Nutrition in the World 2023** Food and Agriculture Organization of the United Nations,International Fund for Agricultural Development,United Nations Children's Fund,World Food Programme,World Health Organization,2023-07-12 This report provides an update on global progress towards the targets of ending hunger SDG Target 2 1 and all forms of malnutrition SDG Target 2 2 and estimates on the

number of people who are unable to afford a healthy diet Since its 2017 edition this report has repeatedly highlighted that the intensification and interaction of conflict climate extremes and economic slowdowns and downturns combined with highly unaffordable nutritious foods and growing inequality are pushing us off track to meet the SDG 2 targets However other important megatrends must also be factored into the analysis to fully understand the challenges and opportunities for meeting the SDG 2 targets One such megatrend and the focus of this year's report is urbanization New evidence shows that food purchases in some countries are no longer high only among urban households but also among rural households Consumption of highly processed foods is also increasing in peri urban and rural areas of some countries These changes are affecting people's food security and nutrition in ways that differ depending on where they live across the rural urban continuum This timely and relevant theme is aligned with the United Nations General Assembly endorsed New Urban Agenda and the report provides recommendations on the policies investments and actions needed to address the challenges of agrifood systems transformation under urbanization and to enable opportunities for ensuring access to affordable healthy diets for everyone

Changing Heritage Francesco Bandarin, 2024-04-09 Changing Heritage presents the most comprehensive analysis of heritage issues available today Critically analysing the complexity of the current and forthcoming issues faced by heritage it presents insightful directions for the future Drawing on the author's many years of experience working in senior positions at UNESCO the book presents discussions of heritage sites all around the world Today our cultural and natural legacies face significant threats due to social and economic developments political pressures and unresolved historical issues This book delves into these threats from two distinct perspectives internal tensions and external pressures The internal tensions include the disregard for human rights and gender equality the increasing exploitation of heritage for political purposes the development of post colonial perspectives and the necessity to reassess the established notion of universal value External pressures stem from global processes unsustainable tourism political conflicts ethnic clashes and religious strife that are causing destruction in numerous parts of the world Examining the dynamics between heritage and these internal tensions and external pressures Bandarin offers insights into the challenges faced and emphasises the imperative role of civil society in safeguarding the value of heritage for present and future generations Changing Heritage explores a wide range of issues surrounding the crisis in heritage management on an international level It will be essential reading for heritage scholars students and professionals

Hazards, Risks, and Disasters in Society Andrew E. Collins, Jones Samantha, Bernard Manyena, Janaka Jayawickrama, 2014-11-21 Hazards Risks and Disasters in Society provides analyses of environmentally related catastrophes within society in historical political and economic contexts Personal and corporate culture mediates how people may become more vulnerable or resilient to hazard exposure Societies that strengthen themselves or are strengthened mitigate decline and resultant further exposure to what are largely human induced risks of environmental social and economic degradation This book outlines why it is important to explore in more

depth the relationships between environmental hazards risk and disasters in society It presents challenges presented by mainstream and non mainstream approaches to the human side of disaster studies By hazard categories this book includes critical processes and outcomes that significantly disrupt human wellbeing over brief or long time frames Whilst hazards risks and disasters impact society individuals groups institutions and organisations offset the effects by becoming strong healthy resilient caring and creative Innovations can arise from social organisation in times of crisis This volume includes much of use to practitioners and policy makers needing to address both prevention and response activities Notably as people better engage prevalent hazards and risks they exercise a process that has become known as disaster risk reduction DRR In a context of climatic risks this is also indicative of climate change adaptation CCA Ultimately it represents the quest for development of sustainable environmental and societal futures Throughout the book cases studies are derived from the world of hazards risks and disasters in society Includes sections on prevention of and response to hazards risks and disasters Provides case studies of prominent societal challenges of hazards risks and disasters Innovative approaches to dealing with disaster drawing from multiple disciplines and sectors

Post-Disaster Reconstruction of the Built Environment Dilanthi Amaratunga,Richard Haigh,2011-06-13 Disasters threaten all parts of the world and they appear to be increasing in frequency scale and intensity Despite huge improvements in the emergency response permanent reconstruction is often uncoordinated inefficiently managed and slow to begin International agencies are geared to an efficient response in terms of humanitarian relief but they are not well versed in the requirements of long term reconstruction which is often constrained by lack of planning and poorly coordinated management The construction industry is typically engaged in a range of critical activities after a disaster including provision of temporary shelter in the immediate aftermath and restoration of permanent shelter and public infrastructure once the immediate humanitarian needs have been attended to Post Disaster Reconstruction of the Built Environment identifies the challenges that face the industry and highlights best practice to enable the construction industry to address those problems which make an effective response to these unexpected events difficult Written by an international team of experts this book will help researchers and advanced students of construction understand the problems faced by communities and the construction industry when faced with a natural or man made disaster and identify the planning and management processes required by the industry to mount an effective response

Displaced by Disaster Ann-Margaret Esnard,Alka Sapat,2014-05-23 Displacement has traditionally been conceptualized as a phenomenon that results from conflict or other disruptions in developing or unstable countries Hurricane Katrina shattered this notion and highlighted the

various dilemmas of population displacement in the United States The dilemmas stem from that of inconsistent terminology and definitions lack of efforts to quantify displacement risk potential and that factor displacement vulnerability into community plans lack of understanding of differential needs of displacees especially during long term recovery periods and policy and institutional responses or lack thereof especially as it relates to post disaster sheltering and housing Incorporating relevant examples cases and policies Esnard and Sapat look at the experience of other countries and how the international community has dealt with hundreds of thousands of individuals who have been forced to leave their homes Displaced by Disaster addresses such issues from a planning and policy perspective informed by scholarship in disciplines such as emergency management political science sociology and anthropology It is ideal for students and practitioners working in the areas of disaster management planning public administration and policy housing and the many disciplines connected to disaster issues
