Southeast Asia in World History Craig Lockard, 2009-04-24 Here is a brief well written and lively survey of the history of Southeast Asia from ancient times to the present paying particular attention to the region's role in world history and the distinctive societies that arose in lands shaped by green fields and forests blue rivers and seas Craig Lockard shows how for several millennia Southeast Asians living at the crossroads of Asia enjoyed ever expanding connections to both China and India and later developed maritime trading networks to the Middle East and Europe He explores how the people of the region combined local and imported ideas to form unique cultures reflected in such striking creations as Malay sailing craft Javanese gamelan music and batik cloth classical Burmese and Cambodian architecture and social structures in which women have often played unusually influential roles Lockard describes colonization by Europeans and Americans between 1500 and 1914 tracing how the social economic and political frameworks inherited from the past combined with active opposition to domination by foreign powers enabled Southeast Asians to overcome many challenges and regain their independence after World War II The book also relates how Malaysia Singapore Thailand Indonesia and Vietnam are now among the fastest growing economies in the world and play a critical role in today's global marketplace Richard M. Nixon and European Integration Joseph M. Siracusa, Hang Thi Thuy Nguyen, 2018-04-13 This book re-examines the Nixon administration's attitude and approach to the European integration project The formulation of US policy towards European integration in the Nixon presidential years 1969-1974 was conditioned by the perceived relative decline of the United States Western European emergence and competition the feared Communist expansionism and US national interests Against that backdrop the Nixon administration saw the need to re-evaluate its policy on Western Europe and the integration process on this continent Underpinning this study is the extensive use of newly released archival materials from the Nixon Presidential Library and Museum the Library of Congress and the State Department Furthermore the work is based on the public papers in the American Presidency Project and the materials on the topic of European integration and unification in the Archive of European Integration Finally the study has extensively used newspaper archives as well as the declassified online documents memoirs and diaries of former US officials Mining these sources made it possible to shed new light on the complexity and
