

WW1 DBQ:

Evaluate the impacts of World War I on the United States. To what extent did World War I impact the agricultural economy, foodways, and social rights of individuals left on the homefront?

Developed July 2017

Background Information (For reference only):

During the late 1800s farmers in the United States struggled with low crop prices due to overproduction. Mechanization allowed farmers to cultivate more land while reducing the number of laborers needed to work the land. African Americans were significantly impacted by the agricultural depression as they were locked in the sharecropping system of the American South with little opportunities in other industries and the inability to move to other regions to improve their condition in life. Jim Crow laws kept African Americans socially segregated and voter suppression through poll taxes and literacy tests excluded African Americans from expressing their voices politically. Women were also fighting for equality during this time as many pushed for the right to vote. Known as women's suffrage, the movement arose during the antebellum period under the leadership of Elizabeth Cady Stanton and Lucretia Mott as well as others.

In Europe mechanization is modernizing militaries across the continent and secret alliances are being formed among the countries. Russia, England, and France align together while Germany, Austria-Hungary, and Turkey also form an alliance. With the assassination of Archduke Franz Ferdinand of Austria-Hungary Europe and the world descended into war due to the alliance system. The United States attempts to remain neutral, but will eventually enter the war due to unrestricted submarine warfare used by Germany to disrupt transportation and shipping in the North Atlantic. In April of 1917 the United States officially declares war and enters World War I allied with Britain, France, and Russia.

The enlistment of white men in the military created a need for a new source of employment in industry across the nation. New opportunities were created for women and African Americans in the workplace and in society. War also brought restrictions on Constitutional rights through laws passed by Congress and actions of the government in the late 1910s and early 1920s. The documents in this packet reflect impacts upon daily life for Americans on the home front.

Note on documents

The documents are presented thematically and not chronologically. The rationale behind this was to group the documents in a way that fit with the question. Students will not have to search through the entire packet when analyzing a particular part of the question.
