### **Connecting the Dots in World History, A Teacher's Literacy Based Curriculum**

Chris Edwards,2015-12-31 In his previously written articles and books Chris Edwards has argued that Teaching should be considered a field that is separate from both the field of Education and from the content area fields Teaching is a field which synthesizes content and method for classroom application All of the other major intellectual fields have a canon of works which practitioners can learn from and add to but Teaching does not The Connecting the Dots in World History A Teacher s Literacy Based Curriculum series changes this by showing how effective a teacher generated curriculum can be These books can inspire other teachers to create their own curriculums and inspire a change in the way that the public views teachers and teaching
