Revisiting Modernity and the Holocaust Jack Palmer, Dariusz Brzeziński, 2022-04-18

Zygmunt Bauman's *Modernity and the Holocaust* is a decisive text of intellectual reflection after Auschwitz in which Bauman rejected the idea that the Holocaust represented the polar opposite of modernity and saw it instead as its dark potentiality. Bringing together leading scholars from across disciplines this volume offers the first set of focused and critical commentaries on this classic work of social theory evaluating its ongoing contribution to scholarship in the social sciences and humanities. Addressing the core messages of *Modernity and the Holocaust* that continue to sound amidst the convulsions of the present the chapters situate Bauman's volume in the social cultural and academic context of its genesis and considers its role in the complex processes of Holocaust memorialisation. Offering extensions of Bauman's thesis to lesser known and undertheorised events of mass violence and also considering the significance of Janina Bauman's writings in their own right this volume will appeal to scholars of sociology intellectual history Holocaust and genocide studies moral philosophy memory studies and cultural theory.

The Myth of the 'Crime Decline' Justin Kotzé, 2019-03-20 *The Myth of the Crime Decline* seeks to critically interrogate the supposed statistical decline of crime rates thought to have occurred in a number of predominantly Western countries over the past two decades. Whilst this trend of declining crime rates seems profound serious questions need to be asked. Data sources need to be critically interrogated and context needs to be provided. This book seeks to do just that. This book examines the wider socio economic and politico cultural context within which this decline in crime is said to have occurred highlighting the changing nature and landscape of crime and its ever deepening resistance to precise measurement. By drawing upon original qualitative research and cutting edge criminological theory this book offers an alternative view of the reality of crime and harm. In doing so it seeks to reframe the crime decline discourse and provide a more accurate account of this puzzling contemporary phenomenon. Additionally utilising a new theoretical framework developed by the author this book begins to explain why the crime decline discourse has been so readily accepted. Written in an accessible yet theoretical and informed manner this book is a must read for academics and students in the fields of criminology sociology social policy and the philosophy of social sciences.
