Technical Abstract Bulletin ,1979 **The Moving Picture World** ,1908 **Eighteenth-century Modernizations from The Canterbury Tales** Betsy Bowden,1991 This collection of 32 modernised versions of The Canterbury Tales which appeared in the 18th century offers basic material for studying the history of attitudes to Chaucer and Chaucer scholarship during the period Reception data so precise and extensive is available only for Chaucer among English authors At least seventeen known and anonymous writers produced thirty two modernised Canterbury tales during the century plus tale links and adaptations of each other's work The present collection contains only modernisations that have not seen print since 1796 thus excluding those by Pope and Dryden Although most works in this collection may be examined further in several British and American libraries others cannot Apparently only one copy has survived of an anonymous Miller's Tale 1791 with a thoughtful preface justifying the tale's overt sexuality published just as William Lipscomb was completing his 1795 edition that in its preface justifies exclusion from the pilgrimage of the notorious tales of Miller and Reeve Such contrasting attitudes illustrate the dangers of generalisation about the usual reception or interpretation of Chaucer during this or any other socio historic period instead the collection provides an untapped reservoir of material with which to investigate anew the rich complexity of his poetry and its enduring appeal BETSY BOWDEN is Professor of English at Rutgers University New Jersey
