Randall T. Ganiban

Virtue S Shield:

Stattius and Virgil Randall T. Ganiban, 2007-02-08 At the end of the Thebaid Statius enjoins his epic not to compete with the divine Aeneid but rather to follow at a distance and always revere its footprints The nature of the Thebaid's interaction with the Aeneid is however a matter of debate This 2007 book argues that the Thebaid reworks themes scenes and ideas from Virgil in order to show that the Aeneid's representation of monarchy is inadequate It also demonstrates how the Thebaid's fascination with horror spectacle and unspeakable violence is tied to Statius' critique of the moral and political virtues at the heart of the Aeneid Professor Ganiban offers both a way to interpret the Thebaid and a largely sequential reading of the poem

Knowing My Inner Self Fazel Naghdy, 2014-06-06 Knowing my inner self is written for teenagers to assist them in their journey to discover inner self and to cultivate their hidden capacities as they blossom from childhood to maturity It explores answers to the fundamental questions that often occupy the mind of adolescents at some stage of their growth What am I Who am I What is the purpose of my life The concepts and issues associated with these questions are examined and their implications for teenagers are highlighted The content of the book is inspired by universal spiritual principles particularly the concepts taught by Bahá'u'lláh the Prophet Founder of the Bahá'í Faith The approach and pedagogy is the result of nearly twenty years of sharing these concepts with teenagers of different age groups in the Education for Peace Program offered by the Yerrinbool Bahá'í Centre of Learning in Australia The style of writing is simple but logical and conclusions are reached through observation and reasoning It simulates as much as possible a tutor-tutored relationship in which the tutor facilitates learning for an individual or a small group In summary the book represents a manual on practical spirituality for teenagers and a workbook of activities to assist the reader to assimilate the concepts and apply them to personal situations The book consists of four major parts a The emergence of human beings This section has its focus on the evolution of life on the earth Efforts are made in this section to distinguish between the facts and theories surrounding the concept of evolution b The nature of human beings Through observation and reasoning it is demonstrated that a pure materialistic view is far from adequate to explain all the characteristics of man c Cultivating inner capacities The cultivation of inner capacities identified as a major objective of human life is emphasised and practical steps to accomplish this are explored d A mystical journey The final part of the book looks into the mystical aspects of spiritual growth which is the process of drawing closer to God through knowledge and recognition of His Manifestation growing love of Him and serving His Cause The book consists of 24 chapters Each chapter starts with an introduction that highlights the key concepts addressed The topic covered in the chapter is then explored in sections of relatively short length The chapter then ends with a series of activities aimed at assisting the reader to assimilate the concepts The activities are designed to stimulate thought and reflection at three levels acquisition of knowledge provided in each chapter analysis of this knowledge and the application of this knowledge particularly to personal situations

The Children's Treasury of Virtues William J.

Bennett,2000 A timeless celebration of the virtues of courage perseverance responsibility faith honesty and compassion this beautifully illustrated single volume combines the wisdom of Bennett s three bestselling children s classics 375 watercolor illustrations throughout *The Democratic Virtues of the Christian Right* Jon A. Shields,2009-02-02 The Christian Right is frequently accused of threatening democratic values But in *The Democratic Virtues of the Christian Right* Jon Shields argues that religious conservatives have in fact dramatically increased and improved democratic participation and that they are far more civil and reasonable than is commonly believed Shields interviewed leaders of more than thirty Christian Right organizations observed movement activists in six American cities and analyzed a wide variety of survey data and movement media His conclusions are surprising the Christian Right has reinvigorated American politics and fulfilled New Left ideals by mobilizing a previously alienated group and by refocusing politics on the contentious ideological and moral questions that motivate citizens Shields also finds that largely for pragmatic reasons the vast majority of Christian Right leaders encourage their followers to embrace deliberative norms in the public square including civility and secular reasoning At the same time Shields highlights a tension between participatory and deliberative ideals since Christian Right leaders also nurture moral passions prejudices and dogmas to propel their movement Nonetheless the Christian Right s other democratic virtues help contain civic extremism sharpen the thinking of activists and raise the level and tenor of political debate for all Americans

The Alternative Augustan Age Josiah Osgood,Kit Morrell,Kathryn Welch,2019-09-02 The princeps Augustus 63 BCE 14 CE recognized as the first of the Roman emperors looms large in the teaching and writing of Roman history Major political literary and artistic developments alike are attributed to him This book deliberately and provocatively shifts the focus off Augustus while still looking at events of his time Contributors uncover the perspectives and contributions of a range of individuals other than the princeps Not all thought they were living in the Augustan Age Not all took their cues from Augustus In their self display or ideas for reform some anticipated Augustus Others found ways to oppose him that also helped to shape the future of their community The volume challenges the very idea of an Augustan Age by breaking down traditional turning points and showing the continuous experimentation and development of these years to be in continuity with earlier Roman culture In showcasing absences of Augustus and giving other figures their due the papers here make a seemingly familiar period startlingly new **Moral Agency in Eastern and Western Thought** Jonathan

Jacobs,Heinz-Dieter Meyer,2024-07-30 This volume explores how individuals use moral agency to craft the moral dispositions and moral capabilities needed for living well lived lives It draws on Eastern and Western philosophical and ethical traditions to formulate and address key issues concerning character development and moral agency In both Eastern and Western traditions the complexities of shaping an individual s moral agency focus on sustained processes of inner self cultivation The chapters in this volume highlight the ways in which one is to manage and direct one s desires and aspirations and what is to count as the source of guidance for a well lived life They engage with key figures and traditions in the history of Eastern and

Western philosophy including Confucian Buddhist and Western sources from Aristotle to Kant The juxtaposition of sources from the different parts of the world highlights striking similarities and significant contrasts and provides rich conceptual resources for further exploration of these issues The volume provides a broader deeper pursuit of central issues of moral psychology and ethics in ways that highlight the inexhaustible resources in these traditions The focus on character is a way to draw together perspectives on ethical life theories of human agency views of fundamental life guiding values and relations between individuals and society and how persons see their place in the world Moral Agency in Eastern and Western Thought will appeal to scholars and advanced students working on virtue ethics moral psychology comparative philosophy and history of philosophy

Lamp, 2013-10-15 In *A City of Marble* Kathleen Lamp argues that classical rhetorical theory shaped the Augustan cultural campaigns and that in turn the Augustan cultural campaigns functioned rhetorically to help Augustus gain and maintain power and to influence civic identity and participation in the Roman Principate 27 b c e 14 c e Lamp begins by studying rhetorical treatises those texts most familiar to scholars of rhetoric and moves on to those most obviously using rhetorical techniques in visual form She then arrives at those objects least recognizable as rhetorical artifacts but perhaps most significant to the daily lives of the Roman people coins altars wall painting This progression also captures the development of the Augustan political myth that Augustus was destined to rule and lead Rome to greatness as a descendant of the hero Aeneas *A City of Marble* examines the establishment of this myth in state rhetoric traces its circulation and finally samples its popular receptions and adaptations In doing so Lamp inserts a long excluded though significant audience the common people of Rome into contemporary

understandings of rhetorical history and considers Augustan culture as significant in shaping civic identity encouraging civic participation and promoting social advancement Lamp approaches the relationship between classical rhetoric and Augustan culture through a transdisciplinary methodology drawn from archaeology art and architectural history numismatics classics and rhetorical studies By doing so she grounds Dionysius of Halicarnassus's claims that the Principate represented a renaissance of rhetoric rooted in culture and a return to an Isocratean philosophical model of rhetoric thus offering a counterstatement to the decline narrative that rhetorical practice withered in the early Roman Empire Thus Lamp's work provides a step toward filling the disciplinary gap between Cicero and the Second Sophistic
