Visions of Empire in the Nazi-Occupied Netherlands Jennifer L. Foray, 2012 Visions of Empire in the Nazi Occupied Netherlands is a study of empire occupation and decolonization and uncovers Nazi occupied Netherlands *Europe after Empire* Elizabeth Buettner, 2016-03-24 A pioneering comparative history of European decolonization from the formal ending of empires to the postcolonial European present *Empire's Violent End* Thijs Brocades Zaalberg, Bart

Luttikhuis, 2022-07-15 In *Empire's Violent End* Thijs Brocades Zaalberg and Bart Luttikhuis along with expert contributors present comparative research focused specifically on excessive violence in Indonesia Algeria Vietnam Malaysia Kenya and other areas during the wars of decolonization In the last two decades there have been heated public and scholarly debates in France the United Kingdom and the Netherlands on the violent end of empire Nevertheless the broader comparative investigations into colonial counterinsurgency tend to leave atrocities such as torture execution and rape in the margins The editors describe how such comparisons mostly focus on the differences by engaging in guilt ranking Moreover the dramas that have unfolded in Algeria and Kenya tend to overshadow similar violent events in Indonesia the very first nation to declare independence directly after World War II *Empire's Violent End* is the first book to place the Dutch Indonesian case at the heart of a comparison with focused thematic analysis on a diverse range of topics to demonstrate that despite variation in scale combat intensity and international dynamics there were more similarities than differences in the ways colonial powers used extreme forms of violence By delving into the causes and nature of the abuse Brocades Zaalberg and Luttikhuis conclude that all cases involved some form of institutionalized impunity which enabled the type of situation in which the forces in the service of the colonial rulers were able to use extreme violence *Occupied* Aviel Roshwald, 2023-04-27 For most of the population of Europe and East and Southeast Asia the most persistent and significant aspect of their experience of the Second World War was that of occupation by one or more of the Axis powers In this ambitious and wide ranging study Aviel Roshwald brings us the first single authored comparative treatment of European and Asian responses to German and Japanese occupation during the war He illustrates how patriotic ethno national and internationalist identities were manipulated exploited reconstructed and reinvented as a result of the wholesale dismantling of states and redrawing of borders Using eleven case studies from across the two continents he examines how behavioral choices around collaboration and resistance were conditioned by existing identities or loyalties as well as by short term cost benefit calculations opportunism or coercion **Building Dutch Air Power in World War II** Nicholas Michael Sambaluk, 2025-01-07 During World War II the United States earned the nickname the arsenal of democracy due to its sheer productive output which included over 3 000 000 trucks and jeeps 86 000 tanks 6 750 naval platforms 300 000 aircraft of all types It was also the

arsenal of democracy in a second sense as a large portion of that hardware was supplied to countries fighting fascism When Franklin D Roosevelt introduced the Lend Lease Act Allied countries of the antifascist coalition were supplied with aid hardware and food Beyond material aid the United States also hosted and trained over 20 000 foreign pilots and aircrew between 1941 and 1945 This book presents the history of one such training program where 532 Dutch pilots crew and other personnel were trained on United States soil over 21 months With the Japanese army intent on invading the Netherlands East Indies it was critical that the Dutch army strengthen their air power When resistance fell on the NEI island of Java and Australia became the new front line Dutch authorities were forced to relocate their training program to Jackson Mississippi where they christened the Royal Netherlands Military Flying School From there they trained on bases in over a dozen states representing a high point for the Dutch air force during a grueling time After their training the RNMFS participated in the liberation of NEI from Japanese occupation This history presents in full context the training of Dutch air personnel on U S soil under the Lend Lease Act their easy rapport with their American hosts and their efforts to establish the Netherlands as an integral part of the Allied cause

during World War II These three themes are examined through the experiences of people and countries under German occupation as well as Soviet Italian and other military rule Those under foreign rule faced innumerable moral and ethical dilemmas including the question of whether to cooperate with their occupiers try to survive the war without any political involvement or risk their lives by becoming resisters Many chose all three depending on wartime conditions Following the brutal war the author discusses the purges of real or alleged war criminals and collaborators through various acts of violence deportations and judicial proceedings at the Nuremberg International Military Tribunal as well as in thousands of local courts Europe on Trial helps us to understand the many moral consequences both during and immediately following World War II

Blood and Ruins Richard Overy, 2023-04-04 Monumental A vast and detailed study that is surely the finest single volume history of World War II Richard Overy has given us a powerful reminder of the horror of war and the threat posed by dictators with dreams of empire The Wall Street Journal A thought provoking and original reassessment of World War II from Britain's leading military historian A New York Times bestseller Richard Overy sets out in Blood and Ruins to recast the way in which we view the Second World War and its origins and aftermath As one of Britain's most decorated and respected World War II historians he argues that this was the last imperial war with almost a century long lead up of global imperial expansion which reached its peak in the territorial ambitions of Italy Germany and Japan in the 1930s and early 1940s before descending into the largest and costliest war in human history and the end after 1945 of all territorial empires Overy also argues for a more global perspective on the war one that looks broader than the typical focus on military conflict between the Allied and Axis states Above all Overy explains the bitter cost for those involved in fighting and the exceptional level of crime and atrocity that marked the war and its protracted aftermath which extended far beyond 1945 Blood and Ruins is a masterpiece a new and definitive look at the ultimate struggle over the future of the global order which will compel us to view the war in novel and unfamiliar ways Thought provoking original and challenging Blood and Ruins sets out to understand the war anew

Citizenship between Empire and Nation Frederick Cooper, 2016-05-31 A groundbreaking history of the last days of the French empire in Africa As the French public debates its present diversity and its colonial past few remember that between 1946 and 1960 the inhabitants of French colonies possessed the rights of French citizens Moreover they did not have to conform to the French civil code that regulated marriage and inheritance One could in principle be a citizen and different too Citizenship between Empire and Nation examines momentous changes in notions of citizenship sovereignty nation state and empire in a time of acute uncertainty about the future of a world that had earlier been divided into colonial empires Frederick Cooper explains how African political leaders at the end of World War II strove to abolish the entrenched distinction between colonial subject and citizen They then used their new status to claim social economic and political equality with other French citizens in the face of resistance from defenders of a colonial order Africans balanced their quest for equality with a desire to express an African political personality They hoped to combine a

degree of autonomy with participation in a larger Franco African ensemble French leaders trying to hold on to a large French polity debated how much autonomy and how much equality they could concede Both sides looked to versions of federalism as alternatives to empire and the nation state The French government had to confront the high costs of an empire of citizens while Africans could not agree with French leaders or among themselves on how to balance their contradictory imperatives Cooper shows how both France and its former colonies backed into more national conceptions of the state than either had sought

Cultural Diplomacy and the Heritage of Empire Cynthia Scott, 2019-11-12 Cultural Diplomacy and the Heritage of Empire analyzes the history of the negotiations that led to the atypical return of colonial era cultural property from the Netherlands to Indonesia in the 1970s By doing so the book shows that competing visions of post colonial redress were contested throughout the era of post World War II decolonization Considering the danger this precedent posed to other countries the book looks beyond the Dutch Indonesian case to the Elgin Parthenon Marbles and Benin Bronzes controversies as well as recent developments relating to returns in France and the Netherlands Setting aside the universalism versus nationalism debate Scott asserts that the deeper meaning of post colonial cultural property disputes in European history has more to do with how officials of former colonial powers negotiated decolonization while also creating contemporary understandings of their nations pasts As a whole the book expands the field of cultural restitution studies and offers a more nuanced understanding of the connections drawn between postcolonial national identity making and the extension of cultural diplomacy Cultural Diplomacy and the Heritage of Empire offers a new perspective on the international influence of the UNGA and UNESCO on the return debate As such the book will be of interest to scholars students and practitioners engaged in the study of cultural property diplomacy and law museum and heritage studies modern European history post colonial studies and historical anthropology

Sachlichkeit in Germany and Novecento in Italy Best represented by the Dutch artists Pyke Koch Carel Willink Charley Toorop Raoul Hynckes Dick Ket and Wim Schuhmacher Neorealism as demonstrated in this book depicted societal disintegration and allegories of looming disaster in reaction to the rise of totalitarian regimes and eventually the Nazi Occupation of The Netherlands The degree to which these artists exhibited either revolutionary or reactionary sentiments usually corresponding with their political affiliation is one of the central problematics explored in this text The book will be of interest to scholars working in art history World War II history and film studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
