World Bank Report Agriculture:

Growth and Productivity in Agriculture and Agribusiness, 2011 The report assesses the World Bank Group's support for growth and productivity in the agriculture sector Enhancing agricultural growth and productivity is essential to meeting the worldwide demand for food and to reducing poverty particularly in the poorest developing countries Between 1998 and 2008 the period covered by this evaluation the World Bank Group WBG provided 23.7 billion in financing for agriculture and agribusiness in 108 countries roughly 8 percent of total WBG financing spanning areas from irrigation and marketing to research and extension However this was a time of declining focus on agricultural growth and productivity by both countries and donors The cost of inadequate attention to agriculture especially in agriculture based economies came into focus with the food crisis of 2007-08 The crisis added momentum to an emerging renewal of attention and stepped up financing to agriculture and agribusiness at the World Bank and International Finance Corporation IFC as well as at several multilateral and bilateral agencies World Bank financing rose two and a half times from 2008 to 2009 though that increase in lending seems to have been accompanied by a decline in analytical work which this review finds valuable for results This evaluation seeks to provide lessons from successes and failures to help improve the development impact of the renewed attention to the sector Ratings against the World Bank's stated objectives and IFC's market based benchmarks for agriculture and agribusiness projects have been equal to or above portfolio averages in East Asia Latin America and the transition economies in Europe with notable successes over a long period in China and India But performance of WBG interventions has been well below average in Sub Saharan Africa where IFC has had little engagement in agribusiness Inconsistent client commitment and weak capacity have limited the effectiveness of WBG support in agriculture based economies particularly in Sub Saharan Africa and constraints on staffing and internal coordination within the WBG have also hurt outcomes Financial sustainability has been constrained by insufficient government funding and the difficulty of maintaining agricultural services and infrastructure The WBG has a unique opportunity to match the increases in the financing for agriculture with sharper focus on improving agricultural growth and productivity in agriculture based economies notably in Sub Saharan Africa Greater effort will be needed to connect sectoral interventions and achieve synergies from public and private sector interventions to build capacity and knowledge exchange to take stock of experience in rain fed agriculture to ensure attention to financial sustainability and to cross cutting issues of gender environmental and social impacts and climate and to better integrate WBG support at the global and regional levels with that at the country level

The World Bank Group and the Global Food Crisis The World Bank, 2014-04-24 The unanticipated spike in international food prices in 2007-08 hit many developing countries hard This evaluation assesses the effectiveness of the

World Bank Group response in addressing the short term impacts of the food price crisis and in enhancing the resilience of countries to future shocks

World Bank Assistance to Agriculture in Sub-Saharan Africa, 2007-01-01 Sub Saharan Africa is a critical development priority it has some of the world s poorest countries and during the past two decades the number of poor in the Region has doubled to 300 million more than 40 percent of the Region s population Africa remains behind on most of the Millennium Development Goals MDGs and is unlikely to reach them by 2015 With some of the world s poorest countries Africa is a development priority for the donor community A major drag on Africa s development is the underperformance of the critical agriculture sector which has been neglected both by donors and governments over the past two decades The sector faces a variety of constraints that are particular to agriculture in Africa and make its development a complex challenge Poor governance and conflict in several countries further complicate matters IEG has assessed the development effectiveness of World Bank assistance in addressing constraints to agricultural development in Africa over the period of fiscal 1991 2006

The Role of the World Bank in Agricultural Development in the 1990s Michael Lipton, Robert L. Paarlberg, 1990-01-01 Bank lending for agriculture and rural development from the 1970s to the 1980s will the decline continue Anticipating the challenges of the 1990s Regional variations [Status of digital agriculture in 47 sub-Saharan African countries](#) Food and Agriculture Organization of the United Nations, International Telecommunication Union, 2022-01-07 Sub Saharan Africa is uniquely positioned significantly increase its current agricultural productivity to lift the region s more than 400 million people out of extreme poverty and improve the livelihood of approximately 250 million smallholder farmers and pastoralists in the region To achieve that substantive digital transformation of the agriculture sector is required through improved infrastructure and increased access to and use of digital technologies for agriculture To improve the current understanding of sub Saharan Africa s digital agriculture landscape the Food and Agriculture Organization of the United Nations FAO and the International Telecommunication Union ITU undertook this study in 47 countries The report is composed of 47 desk based country case studies against six thematic focal areas the aim of which is to present a snapshot of the status of digital agriculture in each country This is followed by highlights of the main findings of the analysis of the country profiles with suggested steps for future action The findings of the study are presented to FAO and ITU Member States as well as all relevant stakeholders with the purpose of advancing and supporting investment in digital transformation of the agricultural sector in sub Saharan Africa

The Digitalisation of African Agriculture Report 2018-2019 Tsan, Michael, Totapally, Swetha, Hailu, Michael, Addom, Benjamin K., 2019-06-30 An inclusive digitally enabled agricultural transformation could help achieve meaningful livelihood improvements for Africa s smallholder farmers and pastoralists It could drive greater engagement in agriculture from women and youth and create employment opportunities along the value chain At CTA we staked a claim on this power of digitalisation to more systematically transform agriculture early on Digitalisation focusing on not individual ICTs but the application of these technologies to entire value chains is a

theme that cuts across all of our work In youth entrepreneurship we are fostering a new breed of young ICT agripreneurs In climate smart agriculture multiple projects provide information that can help towards building resilience for smallholder farmers And in women empowerment we are supporting digital platforms to drive greater inclusion for women entrepreneurs in agricultural value chains **The Elgar Companion to the World Bank** Antje Vetterlein,Tobias Schmidtke,2024-09-06

The Elgar Companion to The World Bank provides a comprehensive review of the past 80 years for this powerful development institution Using different theoretical approaches from an expert group of scholars as well as practitioners it presents an interdisciplinary exploration of the World Bank and the wider field of International Relations The World Bank Devesh Kapur,John P. Lewis,Richard C. Webb,2010-12-01 This effort constitutes the most comprehensive and authoritative work to date on the history of the International Bank for Reconstruction and Development or the World Bank Author editors John Lewis Richard Webb and Devesh Kapur chronicle the evolution of this institution and offer insights into its successes failures and prospects for the future The result of their intense labors is an invaluable resource for other researchers and a fascinating study in its own right The work is divided into two volumes The first is organized thematically and examines the critical events and policy issues in the World Bank s development over the last fifty years Chapter topics include poverty alleviation structural adjustment lending environmental programs the International Finance Corporation IFC the International Development Association IDA and the evolution of the Bank as an institution The second volume contains case studies written by experts with experience in the various regions in which the Bank operates There are chapters on the Bank s activities in Korea Mexico Africa South Asia and Eastern Europe Volume 2 also contains essays on the World Bank s relationship with the United States Japan and Western Europe and its partnership with the International Monetary Fund IMF By special arrangement the authors have had wide ranging access to confidential documents at the World Bank making this work a unique source of information on the internal workings of this critical institution They have also drawn on extensive interviews with current and past Bank officials Moreover publication could not be more timely coming as it does when many in the development community and in the U S Congress are questioning the Bank s track record and even its reason for existence The World Bank Its First Half Century will be of great interest not only to development practitioners but also to students of international relations development economics and global finance During the course of the project John P Lewis and Richard Webb were nonresident senior fellows and Devesh Kapur was a program associate in the Foreign Policy Studies program at the Brookings Institution Lewis is professor emeritus at Princeton University and formerly served as chairman of the Overseas Development Council Webb is managing director of Instituto Cuanto and formerly served as governor at the Central Reserve Bank of Peru and governor at the International Monetary Fund **The Sustainable Learning Community** John D. Kohli,2017-09-21 Africa faces

both big opportunities and worrisome threats The Africa that emerges over the next 40 years whether it becomes a dynamic continent with a growing influence in the world or an economic backwater that exports its people and capital depends on what African countries do now The continent is growing and many socioeconomic indicators are improving but it is no longer catching up with the rest of the world it is not converging This book looks at Africa s economic performance over the last decade highlights the difference in performance across countries and identifies the biggest policy issues that need to be addressed if Africa is to converge with the rest of the world and meet the aspirations of its people Despite tougher global economic conditions slower growth lower commodity prices and tighter financial markets one out of four African countries have averaged per capita income growth above three percent for the last decade The progress of these high performers shows that it is what countries do the policies of their governments the responsiveness of their entrepreneurs the integrity of their institutions and the political will of their leaders that makes the difference not their resource endowments The challenge is to extend this African best practice to more countries of the continent This book shows that the consequences of such a reset can transform the continent but also that the human cost of not doing so would be staggering **World Bank**

Anne C. M. Salda,1995 The Anti-politics Machine James Ferguson,1994 Development it is generally assumed is good and necessary and in its name the West has intervened implementing all manner of projects in the impoverished regions of the world When these projects fail as they do with astonishing regularity they nonetheless produce a host of regular and unacknowledged effects including the expansion of bureaucratic state power and the translation of the political realities of poverty and powerlessness into technical problems awaiting solution by development agencies and experts It is the political intelligibility of these effects along with the process that produces them that this book seeks to illuminate through a detailed case study of the workings of the development industry in one country Lesotho and in one development project Using an anthropological approach grounded in the work of Foucault James Ferguson analyzes the institutional framework within which such projects are crafted and the nature of development discourse revealing how it is that despite all the expertise that goes into formulating development projects they nonetheless often demonstrate a startling ignorance of the historical and political realities of the locale they are intended to help In a close examination of the attempted implementation of the Thaba Tseka project in Lesotho Ferguson shows how such a misguided approach plays out how in fact the development apparatus in Lesotho acts as an anti politics machine everywhere whisking political realities out of sight and all the while performing almost unnoticed its own pre eminently political operation of strengthening the state presence in the local region James Ferguson is an associate professor of anthropology at the University of California at Irvine **New Pathways Out of Poverty** Sam Daley-Harris,Anna Awimbo,2011 Published in association with The National Teaching and Learning Forum

Waste: Uncovering the Global Food Scandal Tristram Stuart, 2009-10-26 The true cost of what the global food industry throws away With shortages volatile prices and nearly one billion people hungry the world has a food problem or thinks it does Farmers manufacturers supermarkets and consumers in North America and Europe discard up to half of their food enough to feed all the world s hungry at least three times over Forests are destroyed and nearly one tenth of the West s greenhouse gas emissions are released growing food that will never be eaten While affluent nations throw away food through neglect in the developing world crops rot because farmers lack the means to process store and transport them to market But there could be surprisingly painless remedies for what has become one of the world s most pressing environmental and social problems Waste traces the problem around the globe from the top to the bottom of the food production chain Stuart s journey takes him from the streets of New York to China Pakistan and Japan and back to his home in England Introducing us to foraging pigs potato farmers and food industry CEOs Stuart encounters grotesque examples of profligacy but also inspiring innovations and ways of making the most of what we have The journey is a personal one as Stuart is a dedicated freegan who has chosen to live off of discarded or self produced food in order to highlight the global food waste scandal Combining front line investigation with startling new data Waste shows how the way we live now has created a global food crisis and what we can do to fix it

ILRI Capacity Strengthening Strategy International Livestock Research Institute,

Recipe for a Livable Planet William Sutton, Alexander Lotsch, Ashesh Prasann, 2024-10-16 The global agrifood system has been largely overlooked in the fight against climate change Yet greenhouse gas emissions from the agrifood system are so big that they alone could cause the world to miss the goal of keeping global average temperatures from rising above 1.5 centigrade compared to preindustrial levels Greenhouse gas emissions from agrifood must be cut to net zero by 2050 to achieve this goal Recipe for a Livable Planet Achieving Net Zero Emissions in the Agrifood System offers the first comprehensive global strategic framework to mitigate the agrifood system s contributions to climate change detailing affordable and readily available measures that can cut nearly a third of the world s planet heating emissions while ensuring global food security These actions which are urgently needed offer three additional benefits improving food supply reliability strengthening the global food system s resilience to climate change and safeguarding vulnerable populations This practical guide outlines global actions and specific steps that countries at all income levels can take starting now focusing on six key areas investments incentives information innovation institutions and inclusion Calling for collaboration among governments businesses citizens and international organizations it maps a pathway to making agrifood a significant contributor to addressing climate change and healing the planet

Globalisation and Seed Sovereignty in Sub-Saharan Africa Clare O'Grady Walshe, 2019-04-16 It is my expectation that respect for the critical importance of seed sovereignty will in due course be recognised by member states of the United

Nations to be as critical to global peace and security as the UN Charter demands in respect of State sovereign equality justice human rights and economic and social wellbeing for all peoples Denis J Halliday UN Assistant Secretary General 1994

98 A constructive contribution to our understanding of what is going wrong and what can go right in the complex area of seed sovereignty Dervla Murphy renowned travel writer and adventurer Keeping seed diversity alive is the secret ingredient not just for the good nutrient dense food that every cook gardener and farmer producer needs but for strengthening our resilience in the face of multiple environmental threats This compelling and timely book helps us to understand what we are up against and how we can overcome it Darina Allen internationally renowned cook founder of Ballymaloe Cookery school and President of the East Cork Convivium of Slow Food This book studies the relationship between globalisation and seed sovereignty in Sub Saharan Africa It provides comparative case studies of the most recent Kenyan and Ethiopian seed laws as well as a study of seed sovereignty on the ground in a locality within Ethiopia Based on extensive fieldwork it identifies the interests and motivations of transnational seed corporations global philanthropic organisations state actors and local farmers It finds significant differences in the wording of seed laws and the exercise of seed sovereignty applying theories of globalisation to help us better understand these varied outcomes It shows that seed sovereignty has the potential to be shared between local national regional and global authorities but in different ways in different countries and localities In the face of what might sometimes appear to be unstoppable global forces these findings suggest that the exercise of seed sovereignty can be transformed even in a highly globalised world

International Trade, Competitive Advantage and Developing Economies Caf Dowlah, 2015-07-30 Available research suggests that less developed countries have significant competitive advantage over developed countries in three major areas of international trade agriculture textiles and clothing T C and cross border labor mobility Incidentally these are also the trade sectors which experienced widespread protectionist measures especially in developed world for decade after decade Under the World Trade Organization WTO which replaced the General Agreement on Tariff and Trade GATT in 1995 much of the restrictions in T C trade has been phased out but still this sector faces much higher tariff and non tariff barriers than any other manufacturing sector in world economy The agricultural sector also experienced significant dismantling of deeply entrenched trade barriers under the WTO over the course of last two decades but the sector still remains plagued with quite extensive domestic supports export subsidies and tariff barriers At the same time despite both theoretical expositions and empirical trends point to significant potential gains from cross border labor mobility the sector remains mired in a complex quagmire of economic and political restrictions around the world Thus all three sectors in which less developed countries have exports interests still remain less liberalized than the sectors in which developed countries have exports interests This book provides an in depth and up to date scholarly analysis of all three trade sectors agriculture T C and cross border labor mobility with a penetrating scrutiny of historical backgrounds and developments crosscurrents of interests and perspectives of both developed and developing countries and

evolving trade patterns and potentials in a more liberalized and globalized world economy The book also identifies critical economic issues and options for less developed countries in the WTO negotiations for further liberalization of agriculture T C and cross border labor mobility This volume will be an important point of reference for students scholars and practitioners of international trade economic development development economics and WTO related issues
