Taking Sides: Clashing Views in World History, Volume 1: The Ancient World to the Pre-Modern Era ,
Expanded Joseph Mitchell,2009-03-27 Presents a collection of essays that debate issues associated to world history including male dominated societies in the ancient world the Crusades and Africa s role in human history *Resources in Education* ,1997-07 *Central Asian Security* Roy Allison,Lena Jonson,2004-05-13 This volume is the first comprehensive scholarly analysis of the strategic reconfiguration of Central Asia as Russia has become more disengaged from the nations in the region and as these nations have developed new relations to the south east and west The international implications are enormous because of the rich energy sources oil and natural gas located in the Caspian Sea area The authors assess a variety

of internal security policy challenges confronting these states for example the potential for conflict arising from such factors as a mixed ethnic population resource scarcity particularly in relation to water management and an Islamic revival They also examine the security policy content of relations between the Central Asian states and regional and international powers specifically the stakes interests and policies of Russia China Iran Turkey and the United States These internal challenges and the evolution of relations with external powers may result in new cooperative relationships but they may also lead to destabilizing rivalry and interstate enmity in Central Asia It is important to identify new patterns of relevance for future security cooperation in the region but the potential for a new security system or for new institutions to manage security in the region remains uncertain These issues are explored by a team of prominent specialists from Western Europe the United States Russia and China

Champions of Choice and Change Dennis C. Bustin, 2023-08-04 Champions of Choice and Change examines the role of seventeenth century English dissenting religious groups and the rise of democratic ideals in western society Many people assume that the French philosophers whose ideas and writings gave rise to the Revolution in France were the creators and initiators of the democratic theories which would shape order and give direction to modern Western society as it developed This work argues otherwise claiming that such advances ideas related to equality choice political involvement education enabling and inclusion of women religious liberty toleration occurred first not in the secular context of late eighteenth century Enlightenment France but in the spiritual

context of radical and or dissenting religious groups in Stuart England over a century earlier shaped by previous ideas of the European Reformers *Islam and the Orientalist World-system* Khaldoun Samman,Mazhar Al-Zo'by,2015-11-17 Featuring Immanuel Wallerstein Joseph Massad Marnia Lazreg and other well known and emerging new authors this book seeks a more accurate understanding of Islam and Islamic societies role and relations to global cultural and economic realities The book confronts a trend today of analyzing Islam as a cultural system that stands outside of and even predates modernity The authors see this trend as part of a racist discourse unaware of the realities of contemporary Islam Islamic societies today are products of the world capitalist system and cannot be understood as being separate from its forces The authors offer a more carefully constructed and richer portrait of Islamic societies today and forcefully challenge the belief that Islam is not part of nor much affected by the modern world system **Catalog of Copyright Entries.
