A Question of Being Karin Holsinger Sherman, 2007-07-20 James Douglass's writings have been recognized as among the most challenging and inspiring explorations of nonviolence and Christian discipleship in the last century Throughout his career Douglass has argued forcefully for the integration of contemplation and resistance theology and cultural critique spirituality and prophetic involvement His work has inspired many of the key figures in recent debates regarding just war Christian nonviolence and radical discipleship and continues to be highly relevant in our contemporary situation In *A Question of Being* the first book length treatment published on Douglass's writings Karin Holsinger Sherman provides an introduction to and engagement with this important body of work through an exploration into its contextual history influences and main themes Moreover the author argues that these themes work together to create an ontology of nonviolence an ontology that integrates the forces of resistance and contemplation so important to Douglass The book begins by examining Douglass's biography and three broad historical trajectories that give context to his thought the fusion of Christianity and American nationalism in the early Cold War period the emergence of cultural critique in the late fifties and early sixties and the Catholic pacifist tradition and the post 1972 period of disillusionment Holsinger Sherman then considers the lives and thought of Dorothy Day Mahatma Gandhi and Thomas Merton as well as their unique intellectual and exemplary influence on Douglass's ideas After explicating the themes of the cross and the kingdom as they developed chronologically in Douglass's writing career this book draws together Douglass's thought to reveal an ontology of nonviolence In her conclusion Holsinger Sherman argues that this ontology of nonviolence is the key to understanding Douglass's integral theology of contemplation and resistance *The British Friend*, 1851

From Suffering to Solidarity Andrew P Klager, 2016-04-28 As experiences of suffering continue to influence the responses of identity groups in the midst of violent conflict a way to harness their narratives stories memories and myths in transformative and non violent ways is needed *From Suffering to Solidarity* explores the historical seeds of Mennonite peacebuilding approaches and their application in violent conflicts around the world The authors in this book first draw out the experiences of Anabaptists and Mennonites from the sixteenth century originsthrough to the present that have shaped their approaches to conflict transformation and inspired new generations of Mennonites to engage in relief development and peacebuilding to alleviate the suffering of others whose experiences today reflect those of their ancestors Authors then explore the various peacebuilding approaches methods and initiatives that have emerged from this Mennonite narrative and its preservation and

dissemination in subsequent generations Finally the book examines how this combined historical sensitivity and resulting peacebuilding theory and practice have been applied in violent conflicts around the world noting both successes and challenges Ultimately From Suffering to Solidarity attempts to answer a question How can a robust historical infrastructure be used to inspire empathetic solidarity with the Other and shape nonviolent ways of transforming conflict to thrust a stick in the spokes of the cycle of violence **Books for Africa** ,1943 **The American Scene** ,1964 **The Two Churches** Michael L.
