**Web 2.0.** Cristóbal Cobo , Hugo Pardo Kuklinski, 2000 Presentación del libro El término Web 2.0 nació a mediados de 2004 y creció hasta ser portada de los principales semanarios mundiales en las navidades de 2006. Este fenómeno tecnológico social se popularizó a partir de sus aplicaciones más representativas Wikipedia YouTube Flickr WordPress Blogger MySpace Facebook OhMyNews y de la sobreoferta de cientos de herramientas intentando captar usuarios generadores de contenidos. Según O'Reilly principal promotor de la noción de Web 2.0 los principios constitutivos de esta son siete la World Wide Web como plataforma de trabajo el fortalecimiento de la inteligencia colectiva la gestión de las bases de datos como competencia básica el fin del ciclo de las actualizaciones de versiones del software los modelos de programación ligera junto a la búsqueda de la

**Engineering the User Interface** Miguel Redondo,Crescencio Bravo,Manuel Ortega,2008-12-10 Digital Divide DD is a term that defines the division between people commu ties states countries etc with respect to the access to the new Information and Communication Technologies ICTs Nowadays it is essential to have tech logical skills to work in a variety of jobs i e administration education etc Moreover ICTs have become ubiquitous and they affect almost every aspect of our daily life The way in which people face the task of using ICTs varies depending on a plethora of variables The most analysed ones are the technological literacy and the educational level These are two very important factors that strongly affect the success of the individuals in accessing ICTs Unfortunately these are not the only variables to consider

Some people suffer from mental and physical disabilities that are real impediments to access ICTs and they must be studied in detail How can we help disabled people to access ICTs Can public telecentres deal with this task Can the ICTs be used to improve the accessibility of disabled people Which projects aim to reduce the digital divide Are they addressed to disabled people These are some of the questions that we will try to answer at least partially in this chapter We believe that governments must invest to avert the DD but they are not the only actors involved in this scenario
