Procedural and declarative information in software manuals Nicole Ummelen,2022-05-20 People who use software manuals want to get something done Procedural information directly supports this goal but the use of declarative information in manuals has often been under discussion Current research gives rise to the expectation that manual users tend to skip declarative information most of the time Also no effects of declarative information in software manuals have yet been found In this study information use and information effects in software manuals are investigated in three experiments thereby taking different user types different task types and different information arrangements into account A new technique was applied the click read method This technique enables the software user to use the manual and carry out software tasks at the same time while information selection and times are recorded automatically in logfiles For the first time quantitative data are presented about the amounts of procedural and declarative information that were selected and the times that were spent using these information types Although procedural information is selected more often and used longer declarative information appears to be a substantial part of the information selection Moreover the results show that using declarative information positively affects performance on future tasks performance on reasoning tasks and factual knowledge

The Athlete and Their Mechanisms of Defense Tom Ferraro,2024-08-01 This important book explores the way athletes use defense mechanisms and coping skills to manage both the internal and external stress faced in competitive sport Covering a range of case studies across various sports the text showcases a taxonomy of immature neurotic and mature defences available to the athlete and describes the benefits and drawbacks of each A clear introductory section defines what defense mechanisms are and how they impact performance such as shame anxiety despair memories of previous losses or fantasies about winning Applying a psychoanalytic approach in line with the ideas of Sigmund Freud Anna Freud Fenichel Leo Rangel George Valliant and many others the author uses each case study to connect the defense mechanism under investigation with the world of the athlete Focused on delivering research based evidence the book helps readers deepen their understanding of the different types of defense mechanisms used by athletes across the globe as the author explains what causes them and recommends techniques for developing effective coping skills Each chapter of the book also includes a reflective section that challenges the reader to think about how they can help athletes to grow and develop healthy defense mechanisms in any stage of their career This invaluable text is geared towards the practitioners researchers psychoanalysts and students in sport psychology who wish to look more deeply into why athletes struggle It is also an ideal resource for athletes interested in understanding ways to cope with the unrelenting exciting and at times overwhelming pressure of competitive sports

An Introduction to Traffic Flow Theory Lily Elefteriadou,2024-04-20 This second edition of An Introduction to Traffic Flow Theory adds new material in

several chapters related to advanced technologies including autonomy the use of sensors and communications and particularly congestion mitigation solutions that leverage connected and autonomous vehicles CAVs It also includes a new chapter that briefly outlines several mathematical analysis techniques commonly used in traffic flow theory aiming to introduce students to some of the most frequently used tools available for traffic operational related analysis This new edition also includes several updates related to the most recent versions of the Highway Capacity Manual and the Green Book This textbook is meant for use in advanced undergraduate graduate level courses in traffic flow theory with prerequisites including two semesters of calculus statistics and an introductory course in transportation The text would also be of interest to transportation professionals as a refresher in traffic flow theory or as a reference Students and engineers of diverse backgrounds will find this text accessible and applicable to today's traffic issues This text provides a comprehensive and concise treatment of the topic of traffic flow theory and includes several topics relevant to today's highway transportation system It provides the fundamental principles of traffic flow theory as well as applications of those principles for evaluating specific types of facilities freeways intersections etc Newer concepts of Intelligent transportation systems ITS and their potential impact on traffic flow are discussed State of the art traffic flow research microscopic traffic analysis and traffic simulation have significantly advanced and are also discussed in this text Real world examples and useful problem sets complement each chapter

Sustainable Materials and Technologies in VLSI and Information Processing Shashi Kant Dargar, Shilpi Birla, Abha Dargar, Avtar Singh, D. Ganeshaperumal, 2025-05-23 The International Conference on Sustainable Materials and Technologies in VLSI and Information Processing aimed to converge advancements in semiconductor technology with sustainable practices addressing the critical need for eco consciousness in the field of Very Large Scale Integration VLSI and Information Processing The primary purpose of the conference was to explore innovative materials manufacturing processes and design methodologies that minimize environmental impact while optimizing performance and functionality in electronic devices Key features of the conference included interdisciplinary discussions on sustainable materials such as biodegradable polymers low power semiconductor materials and recyclable electronic components Additionally it focused on emerging technologies like quantum computing neuromorphic computing and photonic integrated circuits exploring their potential contributions to sustainability in VLSI and information processing The intended audience comprised of researchers scientists engineers and industry professionals from academia government and private sectors involved in semiconductor technology materials science environmental sustainability and information processing What set this conference apart was its unique emphasis on sustainability within the realm of VLSI and information processing While there are conferences focusing on either semiconductor technology or sustainability separately this conference bridged the gap between the two fostering discussions and collaborations that pave the way for greener and more efficient electronic devices and systems

Progress in Pattern Recognition, Image Analysis, Computer Vision, and Applications João Manuel R.

S. Tavares, João Paulo Papa, Manuel González Hidalgo, 2022-01-13 This book constitutes the proceedings of the 25th Iberoamerican Congress on Progress in Pattern Recognition Image Analysis Computer Vision and Applications CIARP 2021 which took place during May 10 13 2021 The conference was initially planned to take place in Porto Portugal but changed to a virtual event due to the COVID 19 pandemic The 45 papers presented in this volume were carefully reviewed and selected from 82 submissions They were organized in topical sections as follows medical applications natural language processing metaheuristics image segmentation databases deep learning explainable artificial intelligence image processing machine learning and computer vision *Applied Cryptography and Network Security* Giuseppe Ateniese, Daniele Venturi, 2022-06-17 The LNCS volume 13269 constitutes the proceedings of the 20th International Conference on Applied Cryptography and Network Security ACNS 2022 which will take place in a hybrid mode in Rome Italy in June 2022 The 44 full papers together with 5 short papers presented in this proceeding were carefully reviewed and selected from a total of 185 submissions They were organized in topical sections as follows Encryption Attacks Cryptographic Protocols System Security Cryptographic Primitives MPC Blockchain Block Cyphers and Post Quantum Cryptography Generative Artificial Intelligence. World Intellectual Property Organization, 2024-07-03 In this WIPO Patent Landscape Report on Generative AI discover the latest patent trends for GenAI with a comprehensive and up to date understanding of the GenAI patent landscape alongside insights into its future applications and potential impact The report explores patents relating to the different modes models and industrial application areas of GenAI *Sharing the Road* Dengbo He, Xiaotong Sun, Huan Yu, 2025-03-11 With the advancements in sensor and computation technologies connected autonomous vehicle CAV services are being tested and deployed on public roads sharing the road with human driven vehicles HVs This brings challenges to traffic safety due to uncertainty in HVs behaviors To address these challenges *Sharing the Road* offers solutions to create a safer world where HVs and AVs mix freely on our roads Presented from a team of researchers from different domains offering varying perspectives this book systematically summarizes the issues and trends of mixed traffic from the micro such as vehicle algorithm design to the macro including traffic flow optimization and policy perspectives Customized car following models describing the behaviors of HVs when interacting with CAVs and control algorithms optimizing the traffic flow in terms of traffic safety and efficiency are discussed The title also summarizes approaches to model HVs behaviors and case studies of real life examples are provided leaving the reader with a detailed vision of the future of a mixed traffic world This title will appeal to professionals at any career stage in the fields of human factor engineering traffic engineering urban design and vehicle engineering *Methods and Applications for Modeling and Simulation of Complex Systems* Wenhui Fan, Lin Zhang, Ni Li, Xiao Song, 2022-12-23 The two volume set CCIS 1712 and 1713 constitutes the proceedings of the 21st Asian Simulation Conference AsiaSim 2022 which took place in Changsha China in January 2023 Due to the Covid pandemic AsiaSim 2022 has been postponed to January 2023 The 97 papers presented in the proceedings were carefully reviewed and

selected from 218 submissions The contributions were organized in topical sections as follows Modeling theory and methodology Continuous system discrete event system hybrid system intelligent system modeling and simulation Complex systems and open complex and giant systems modeling and simulation Integrated natural environment and virtual reality environment modeling and simulation Networked Modeling and Simulation Flight simulation simulator simulation support environment simulation standard and simulation system construction High performance computing parallel computing pervasive computing embedded computing and simulation CAD CAE CAM CIMS VP VM VR SBA Big data challenges and requirements for simulation and knowledge services of big data ecosystem Artificial intelligence for simulation Application of modeling simulation in science engineering society economy management energy transportation life biology medicine etc Application of modeling simulation in energy saving emission reduction public safety disaster prevention mitigation Modeling simulation applications in the military field Modeling simulation applications in education and training Modeling simulation applications in entertainment and sports

Cyber Security Intelligence and Analytics Zheng Xu, Saed Alrabaee, Octavio Loyola-González, Xiaolu Zhang, Niken Dwi Wahyu Cahyani, Nurul Hidayah Ab Rahman, 2022-02-26 This book presents the outcomes of the 2022 4th International Conference on Cyber Security Intelligence and Analytics CSIA 2022 an international conference dedicated to promoting novel theoretical and applied research advances in the interdisciplinary field of cyber security particularly focusing on threat intelligence analytics and countering cyber crime The conference provides a forum for presenting and discussing innovative ideas cutting edge research findings and novel techniques methods and applications on all aspects of cyber security intelligence and analytics Due to COVID 19 authors keynote speakers and PC committees will attend the conference online

Data Science Fundamentals with R, Python, and Open Data Marco Cremonini, 2024-04-02 Data Science Fundamentals with R Python and Open Data Introduction to essential concepts and techniques of the fundamentals of R and Python needed to start data science projects Organized with a strong focus on open data Data Science Fundamentals with R Python and Open Data discusses concepts techniques tools and first steps to carry out data science projects with a focus on Python and RStudio reflecting a clear industry trend emerging towards the integration of the two The text examines intricacies and inconsistencies often found in real data explaining how to recognize them and guiding readers through possible solutions and enables readers to handle real data confidently and apply transformations to reorganize indexing aggregate and elaborate This book is full of reader interactivity with a companion website hosting supplementary material including datasets used in the examples and complete running code R scripts and Jupyter notebooks of all examples Exam style questions are implemented and multiple choice questions to support the readers active learning Each chapter presents one or more case studies Written by a highly qualified academic Data Science Fundamentals with R Python and Open Data discuss sample topics such as Data organization and operations on data frames covering reading CSV dataset and common errors and slicing creating and deleting columns in R Logical conditions and row selection covering

selection of rows with logical condition and operations on dates strings and missing values Pivoting operations and wide form long form transformations indexing by groups with multiple variables and indexing by group and aggregations Conditional statements and iterations multicolumn functions and operations data frame joins and handling data in list dictionary format Data Science Fundamentals with R Python and Open Data is a highly accessible learning resource for students from heterogeneous disciplines where Data Science and quantitative computational methods are gaining popularity along with hard sciences not closely related to computer science and medical fields using stochastic and quantitative models

Proceedings of the 11th Annual Generalized Intelligent Framework for Tutoring (GIFT) Users Symposium (GIFTSym11) Benjamin Goldberg, 2023-07-01 Welcome to the Proceedings of the 11th Annual GIFT User Symposium This year we are celebrating 11 years of GIFT Symposiums and have accepted 15 papers for publication All of the presentations that occurred at GIFTSym11 and the papers in this volume show the versatility of the Generalized Intelligent Framework for Tutoring GIFT and the work that is being done with GIFT GIFT is an open source intelligent tutoring system ITS architecture that is freely available online at GIFTtutoring.org There are both Cloud and Downloadable version of GIFT GIFT has been developed with multiple goals in mind including supporting ITS research and simplified creation of ITSs and Adaptive Instructional Systems AISs Our fantastic team and our program committee did a great job supporting the development of GIFTSym11 reviewing papers and assisting with the facilitation of the event this year We want to recognize them for their efforts Benjamin Goldberg Gregory Goodwin Michele Myers Alexandra Lutz Randall Spain Lisa N Townsend We were very pleased to have GIFTSym11 return to being an in person event this year Additionally this was our first year offering a hybrid option for attendees We are very happy that both modalities were well attended *Gaze and Postural Stability*
