Imagining the Future Chilla Bulbeck,2012 Do young Australians understand and live equality and difference differently from older generations Is Australia the gender equal society that many claim it to be How do we understand and explain growing economic inequality when our dominant ideologies are individualism and neoliberalism What are or should be the limits of tolerance in our negotiation of cultural difference Imagining the Future explores our contemporary complex equality narrative through the desires and dreams of 1000 young Australians and 230 of their parents from diverse backgrounds across Australia This extraordinary data set affords analysis of the impact of gender socio economic disadvantage ethnicity Aboriginality and sexuality on young peoples imagined life stories or essays written about their future An intergenerational comparison assesses how different young people really are from older generations The book offers a compelling and subtle engagement with the sometimes deeply moving sometimes hilarious voices of young people to deliver insight into the challenges and complexity of gender and other social relations in early 21st Australian society Young people yearn for and believe in equal opportunities but their imagined life stories indicate massive inequalities in the

personal resources that will allow them to achieve their goals They claim to live in a world of gender equality even as they continue to cherish performances of gender difference The gulf between young mens and young womens imagined intimate lives together suggest that many are bound for conflict They and indeed their parents do not understand the world in terms of class relations but proclaim that everyone is the same even as they are aware of fine distinctions in economic resources and cultural capital Alongside proclaimed acceptance of cultural diversity the advantages experienced by virtue of being white challenges many young Australians In an increasingly individualistic world some young people perform in intimate citizenship or personal engagements based on shared experiences Like their parents few understand obligations towards unmet others which form the basis of national solidarity Billboard ,1953-08-29 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends

L. A. Cops Samuel Turner,2012-11 L A Cops is primarily a work of fiction with a few exceptions the names of my characters as well as most of the cities and counties in the San Joaquin Valley are figments of my imagination If the reader believes that I have written about actual places as well as real crimes that is his right to do so I can only say in my defense that all writers have stored in their memory cells recollections of actual events and frequently borrow from those storage banks ideas that eventually go together to make up a story or even an entire novel That s how writers of fiction make a living unless the work is pure science fiction the more closely it resembles real life situations the more likely it will sell because we all experience something inside when we can relate to the characters events or locales in a story I have used real situations and in several instances actual places in the chapters that deal with World War II Of course built within that framework I ve taken the liberty to make my characters more colorful gallant or tyrannical than may have been the actual case I wasn t old enough during that period to have had personal experiences of this nature but some of the military individuals I ve introduced you to may approximately match some that I ran into during my own years in the Air Force After all no one period in time has its own special hold on good decent people nor on those who have made life less than great for those they have come in contact with You will find both types playing important roles in my book *Billboard* ,1993-08-14 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends
