**The Branding of Right-Wing Activism** Khadijah Costley White, 2018-08-02 From the start of Barack Obama's presidency in 2009 conservative populist groups began fomenting political fractiousness dissent and surprising electoral success The Tea Party was one of the major characters driving this story But as Khadijah Costley White argues in this book the Tea Party's ascent to major political phenomenon can be attributed to the way in which partisan and non-partisan news outlets branded the Party as a pot stirrer in political conflicts over race class and gender In other words the news media played a major role in developing cultivating and promoting populism's brand particularly within the news spaces of commentary and opinion Through the language of political marketing branding and promotion the news media not only reported on the Tea Party but also acted as its political strategist and brand consultant Moreover the conservative press acted more as a political party than a news medium deliberately promoting the Tea Party and aiding in organizing headlining and galvanizing a conservative political base around specific Tea Party candidates values and events In a media environment in which everyone has the opportunity to tune out tune in and speak back *The Branding of Right Wing Activism* ultimately shows that distinctions between citizens journalists activists politicians celebrities and consumers are more symbolic than concrete

**Thin Description** John L. Jackson Jr., 2013-11-04 African Hebrew Israelites of Jerusalem are often dismissed as a fringe cult but John L. Jackson questions what fringe means when cultural practices of every stripe circulate freely on the Internet He reveals how race religion and ethnographic representation must be understood anew in the 21st century lest we reenact past errors

*In Someone Else's Country* Trenita Brookshire Childers, 2020-08-12 In this groundbreaking work Trenita Childers explores the enduring system of racial profiling in the Dominican Republic where Dominicans of Haitian descent are denied full citizenship in the only country they have ever known As birthright citizens they now wonder why they are treated like they are in someone else's country Childers describes how nations like the Dominican Republic create stateless second class citizens through targeted documentation policies She also carefully discusses the critical gaps between policy and practice while excavating the complex connections between racism and labor systems Her vivid ethnography profiles dozens of Haitian immigrants and Dominicans of Haitian descent and connects their compelling individual experiences with broader global and contemporary discussions about race immigration citizenship and statelessness while highlighting examples of collective resistance
