

**ESSENTIALS OF SOCIOLOGY, 7<sup>TH</sup> EDITION  
CHAPTER 2: CULTURE AND SOCIETY**

**CHAPTER SUMMARY**

Please review the entire chapter to gain a more comprehensive view and understanding of the subject matter. Do not rely solely on the chapter summary.

**What Is Culture?**

- Culture consists of the values held by a given group, the norms they follow, the language they speak, and the material goods they create.
- Cultural appropriation is when members of one cultural group borrow elements of another group's culture.

**How Does Human Culture Develop?**

- Human cultures have evolved over thousands of years and reflect both human biology and the physical environment where the cultures emerged. A defining feature of humankind is its inventiveness in creating new forms of culture.
- Most sociologists do not deny that biology plays a role in shaping human behavior, especially through the interaction between biology and culture. Sociologists' main concern, however, is with how behavior is learned in the individual's interaction with society.
- Forms of behavior found in all, or virtually all, cultures are called cultural universals. Language, the prohibition against incest, institutions of marriage, the family, religion, and property are the main types of cultural universals—but within these general categories there are many variations in values and modes of behavior among different societies.
- We live in a world of symbols, or representations, and one of our most important forms of symbolization is language. The linguistic relativity hypothesis argues that language influences perception. Language is also an important source of cultural continuity, and the members of a culture are often passionate about their linguistic heritage.
- Cultural diversity is a chief aspect of modern culture, and in the United States it is seen in the large number of vibrant subcultures as well as in the existence of countercultures. Although some people feel that different subcultures should be assimilated into a single mainstream culture, others argue in favor of multiculturalism.

**What Happened to Premodern Societies?**

- Several types of premodern societies can be distinguished. In hunting and gathering societies, people do not grow crops or keep livestock but gain their livelihood from gathering plants and hunting animals. Pastoral societies are those that raise domesticated animals as their major source of subsistence. Agrarian societies depend on the cultivation of fixed plots of land. Larger, more developed, urban societies form traditional states or civilizations.

**An Introduction to American Policing** Stevens, 2017-05-08 *An Introduction to American Policing* Second Edition connects the US criminal justice system criminology and law enforcement knowledge to the progress of the police community It is the perfect resource for a Police Science course

**Dances with Spirits** Calvin Helin, 2014-07-01 Scientific and technological advances have provided the means for destroying planetary life but does humanity have the wisdom necessary to choose survival While facing impending danger cultures worldwide can benefit by exploring tried and true perspectives on humankind's place in the world One proven measure for greater balance comes through reclaiming the spirit infused views that ensured the survival of our ancestors for millennia

*Resources in Education*, 1994

**Sociology** Jean Stockard, 2000 SOCIOLOGY DISCOVERING

SOCIETY 2nd provides comprehensive coverage of sociology in an affordable paperback format With research studies in every chapter and boxes that portray sociologists at work it will especially appeal to sociology professors who value a quantitative research methodology oriented approach Instead of presenting every possible theory for each issue Stockard's streamlined approach pulls in theories only when they appropriately relate to the issue at hand This integrated approach produces a text that reads more smoothly than the overly encyclopedic heavily interrupted narratives of other texts **The Men's Bibliography** Michael Flood, 1995 Capturing Digital Media Thomas J. Connelly, 2019-04-18 Why are filmmakers such as J J Abrams Christopher Nolan and Quentin Tarantino continuing to shoot their movies on celluloid in the digital age of cinema Are these filmmakers choosing the photochemical process of celluloid images purely for aesthetics purposes Or could their preference for celluloid have something to do with analogue's intimate connection to the subject of lack and desire Capturing Digital Media Perfection and Imperfection in Contemporary Film and Television examines the relationship between the perfection of the digital form and the imperfection of the human subject in recent film and television Using a number of key psychoanalytic terms and new media concepts Capturing Digital Media shows that the necessity of imperfection is where we locate the human subject of desire within the binary logic of the digital It argues that the perfection of digital must be wounded by forms of imperfection in order to make media texts such as film and television desirable But even as films and television texts incorporate forms of imperfection digital perfection remains a powerful attraction in our engagement with moving images such as high definition screens spectacular digital effects and state of the art sound
