Tema 5: Pragmática de la lengua española

Pragmática: estudia el uso del lenguaje en función a la relación entre enunciados, contexto e interlocutores. Analiza cómo los hablantes producen e interpretan enunciados en un contexto.

Los valores extralingüísticos son: los interlocutores, la intención comunicativa, el contexto y el conocimiento del mundo. Se dice que los interlocutores poseen información pragmática, entendiendo como tal el conjunto de conocimientos, creencias, supuestos, opiniones, etc. de un individuo en una interacción oral concreta.

J.L. Austin desarrolla la teoría de los actos de habla → la lengua es la forma de actuar intencionada que se interpreta por el receptor según un contexto.

H.P. Grice (años 70) estableció la teoría del principio de cooperación → esperar un determinado comportamiento entre interlocutores como consecuencia de un acuerdo anterior para poder comunicarse. ← Un principio general que guía a los interlocutores en la conversación.

DEIXIS.

Procede de la palabra griega que significa "señalar" o "indicar"; designa la referencia por medio de unidades gramaticales de la lengua.

Son deícticas todas las expresiones lingüísticas (del tipo yo, aquí, ahora) que se interpretan en relación con un elemento de la enunciación (interlocutores, coordenadas de espacio y tiempo). La señalización deíctica es frecuente sobre todo en las conversaciones cara a cara.

K. Bühler (1934) distingue entre:

- Campo mostrativo: funcionan aquellos elementos que suponen una indicación a la situación comunicativa.
- Campo simbólico: donde los nombres (que funcionan como símbolos) reciben su precisión significativa.

En la teoría de la enunciación de E. Benveniste (1966 y 1974), el yo-aquí-ahora constituye el "centro deíctico" o "punto cero" de las coordenadas contextuales para la realización e interpretación de cada acto de comunicación. Es el hablante quien organiza el discurso desde su campo de referencias, que otorga sentido a los elementos deícticos y al propio discurso.

Deixis personal

- Pronombre personales de 1ª y 2ª persona (yo, mí, me, tu, te ti) y los de la 3ª persona (él, ella) solo se usan si está presente en la conversación.
- Pronombres posesivos de 1ª y 2ª persona (mi, tu, su, nuestro, vuestro...).

Deixis temporal

Se localiza con adverbios o locuciones adverbiales (hoy, el mes pasado, hace poco...) y con morfemas de tiempo (llegó, llegas...)

Deixis espacial

Formada por adverbios de lugar (aquí, ahí, allí, allá...), demostrativos (este, ese, aquel...) y verbos de significado locativo (traer) al lugar que se habla, (venir), etc.
