Toskos,Alexia Toskos Dils,2011 How do we understand language What kinds of representations do people form when hearing a story or when reading a paragraph In this dissertation I will explore how people make meaning out of the language that they read or hear One possibility is that the words we read or hear engage perceptuomotor representations and language comprehension arises from modality specific simulation or imagery of the linguistic content Strong versions of the modality specific approach assume complete overlap between the representations generated by language and those generated by perception and action Perhaps representations brought about by language only partially overlap and interact with perception and action with clear limits and with important differences along the continuum from concrete to abstract language The studies presented in this dissertation aim to delineate where perception and language understanding share representations and processing resources and where they diverge The findings suggest that language understanding affects visuospatial processing Chapter 2 and visual motion processing Chapter 3 but to a lesser extent than does perception itself **Tenkill** Shannon Kirk,2025-09-23 WHAT WOULD YOU DO IF THOSE YOU THOUGHT WERE FIGHTING FOR JUSTICE WERE ONLY INTERESTED IN THEIR OWN GAIN After discovering a corrupt money making scheme at her own law firm attorney Greta Seville goes on the run armed with stolen email evidence that could bring the whole company down With the help of a rag tag legal team including Greta s philosophy professor brother a genius litigation technology professional a possibly psychopathic but effective summer associate a bulldog investigative reporter and Greta s darling boyfriend Henry the group go after the massive hospital Tenkill that appears to be at the center of the corruption But people who have high flying careers to ruin and millions to lose will kill to keep their secrets buried *The Queen of Emerald Falls* J.J.
