The background of the slide is a composite image. It shows a view of the Earth from space, with the blue oceans and white clouds of the Western Hemisphere visible. On top of the Earth's horizon, there is a lush green forest and a modern city skyline with several skyscrapers. The sky above the city is a mix of dark blue and green, suggesting a transition or a sustainable future.

## **The Age Of Sustainable Development:**

The Age of Sustainable Development Jeffrey D. Sachs, 2015-03-10 Jeffrey D Sachs has shown himself to be one of the world's most perceptive and original analysts of global development in his groundbreaking books including *The End of Poverty* and *Common Wealth Economics for a Crowded Planet*. Now in this major new work he presents a compelling and practical framework for how global citizens can address the seemingly intractable worldwide problems of persistent extreme poverty, environmental degradation and political economic injustice. Sachs outlines the holistic way forward: sustainable development. This provocative work offers readers, students, activists, environmentalists and policy makers the tools, metrics and practical pathways they need to achieve Sustainable Development Goals. Far more than a rhetorical exercise, this book is designed to inform, inspire and spur action. Based on Sachs's twelve years as director of the Earth Institute at Columbia University, his thirteen years advising the United Nations secretary general on the Millennium Development Goals and his recent presentation of these ideas in a popular online course, *The Age of Sustainable Development* is a landmark publication and a clarion call for all who care about our planet and global justice.

Through an extensive global outlook, this book highlights bottom-up methods of implementing and achieving sustainable urban development in the age of climate change.
