Parker, Stuart McKie, 2018-04-30 This second volume in the new TRAC Themes in Roman Archaeology series seeks to push the research agendas of materiality and lived experience further into the study of Roman magic a field that has until recently lacked object focused analysis Building on the pioneering studies in Boschung and Bremmer s 2015 Materiality of Magic the editors of the present volume have collected contributions that showcase the value of richly detailed context specific explorations of the magical practices of the Roman world By concentrating primarily on the Imperial period and the western provinces the various contributions demonstrate very clearly the exceptional range of influences and possibilities open to individuals who sought to use magical rituals to affect their lives in these specific contexts something that would have been largely impossible in earlier periods of antiquity Contributions are presented from a range of museum professionals

commercial archaeologists university academics and postgraduate students making a compelling case for strengthening lines of communication between these related areas of expertise *Magic and Magicians in the Middle Ages and the Early Modern Time* Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic astrology necromancy medicine and even sciences in the pre modern world Under the umbrella term magic the contributors to this volume examine a wide range of texts both literary and religious both medical and philosophical in which the topic is discussed from many different perspectives The fundamental concerns address issue such as how people perceived magic whether they accepted it and utilized it for their own purposes and what impact magic might have had on the mental structures of that time While some papers examine the specific appearance of magicians in literary texts others analyze the practical application of magic in medical contexts In addition this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large **Studies in the Historical Jesus** Justin J. Meggitt, 2023-08-29

Studies in the Historical Jesus Anarchy Miracles and Madness is a selection of key essays on the historical figure of Jesus published over the last fifteen years by Justin J Meggitt Each addresses a central question in the study of Jesus and his context from the role of myth in the creation of traditions about him and the historicity of his miracles to the problem of his politics and the reasons for his execution The collection brings fresh perspectives and new data to bear on enduring debates and demonstrates the value of history from below in making sense of the historical Jesus and the world that made him

War Magic Douglas Farrer, 2016-09-01 This compelling volume explores how war magic and warrior religion unleash the power of the gods demons ghosts and the dead Documenting war magic and warrior religion as they are performed in diverse cultures and across historical time periods this volume foregrounds embodiment practice and performance in anthropological approaches to magic sorcery shamanism and religion The authors go beyond what magic represents to consider what magic does From Chinese exorcists Javanese spirit siblings and black magic in Sumatra to Tamil Tiger suicide bombers Chamorro spiritual re enchantment tantric Buddhist war magic and Yanomami dark shamans religion and magic are re evaluated not just from the practitioner s perspective but through the victim s lived experience These original investigations reveal a nuanced approach to understanding social action innovation and the revitalization of tradition in colonial and post colonial societies undergoing rapid social transformation **From the Supernatural to the Uncanny** Zoltán Biedermann, Stephen

M. Hart, 2018-01-23 This volume is a collection of thirteen essays built around the question what is the supernatural and how and why has it changed over time It is divided into two complementary sections the first focussing on research on the discourse of the supernatural including the miraculous located in the medieval and early modern eras and the second consisting of a set of test cases involving research on the uncanny often articulated in a post Freudian sense as expressed in

modern literature film and art The eclectic and prismatic approach pursued via a variety of test cases of the supernatural in this book gives rise to a clear comparative and diachronic study of the main characteristics of the supernatural **Religion, Faith and Crime** Kim Sadique, Perry Stanislas, 2016-05-28 This unique collection brings together international contributors from a range of disciplines to explore crime and responses to crime through a religious faith based lens At a time when religion is under the media spotlight in terms of religiously motivated hate crime terrorism and child abuse this book provides an important platform for academic debate It examines these and other key issues including faith as a coping strategy religion as a motivating factor and the role of religion and morality in shaping criminal justice responses This collection clearly places religion faith at the heart of criminological enquiry and illustrates its relevance in addressing wider social issues and would be of benefit to students and academics researching or studying in these areas It will also be of interest to community and criminal justice practitioners and those with an interest in community engagement and multi faith work Gender, African Philosophies, and Concepts Musa W. Refuge in a Moving World Elena Fiddian-Qasmiyeh , 2020-07-17 Refuge in a Moving World draws together more than thirty contributions from multiple disciplines and fields of research and practice to discuss different ways of engaging with and responding to migration and displacement The volume combines critical reflections on the complexities of conceptualizing processes and experiences of forced migration with detailed analyses of these experiences in contemporary and historical settings from around the world Through interdisciplinary approaches and methodologies including participatory research poetic and spatial interventions ethnography theatre discourse analysis and visual methods the volume documents the complexities of refugees and migrants journeys This includes a particular focus on how people inhabit and negotiate everyday life in cities towns camps and informal settlements across the Middle East and North Africa Southern and Eastern Africa and Europe *Rethinking the Anthropology of Magic and Witchcraft* Phillips Stevens, Jr., 2023-12-12 This book introduces students to the anthropology of magic and witchcraft terms widely used but with no widely accepted definitions It takes a new approach to this area within the anthropology of religion demonstrating that the bases for these beliefs and alleged practices are inherent in human cognition and psychology even instinctual and likely rooted in our evolutionary biology It shows how magic and magical thinking are regular elements in people s daily lives and that

understanding the components of the witchcraft complex offers surprisingly important insights into patterns of thinking and social behavior The book reviews the many meanings of magic and witchcraft and introduces the best anthropological meanings of the terms The components of these beliefs are timeless and universal this fact and recent advances in the brain sciences suggest that the principles of magic are derived from basic processes of human thinking and the attributes of the witch derive from neurobiologically based fears and fantasies The propensity for such beliefs probably had adaptive significance in the evolutionary development of the human species they are inherently human This book is intended to focus anew on the core concepts of magic witchcraft and the supernatural while also serving as an introduction to the anthropology of religion for undergraduate and graduate level courses

In God's Good Image J.W. Buck, 2024-12-03 Cultural identity matters to us and to Jesus Culture is all around us Nothing we think do or say exists outside of it But the story of God is clear We are all made in God s good image and God s people are meant to be a diverse community Looking to the example of Jesus author J W Buck offers practical insights into how cultural identity fits into our walk as Christians No matter where we come from and no matter how complex our cultural narratives the Scriptures point to the One who embodied a particular identity of a Jewish man in first century Palestine in order to shape our own Jesus teaches those formed by majority culture to humbly embrace their identity as they foster space for others And he empowers those from minority cultures to resist pressure to assimilate in unhealthy ways and instead live into their God given identity God dignifies our culture and wants us to shape it to look more like Jesus We are meant to be like Jesus in our home culture in our heart language and throughout our collective journey to understand how our diversity points us to a better expression of God s good image

The Anthropology of Religion, Magic, and Witchcraft Rebecca Lynne Stein, Philip L. Stein, 2017

Witchcraft Accusations and Persecutions as a Mechanism for the Marginalisation of Women Samantha Spence, 2017-08-21 This book draws on feminist commentary from the disciplines of anthropology history law politics and sociology in order to deal with the phenomenon of modern day witchcraft It focuses on the re emergence of witchcraft beliefs in contemporary society suggesting that witchcraft accusations and persecution are being used as a marginalisation mechanism of women The re emergence of witchcraft beliefs in contemporary society and the prevalence of the violence associated with such beliefs has received little attention within academic literature yet witchcraft related violence against women is progressively becoming one of the most pervasive forms of violence facing women today This book addresses this gap in the literature discussing the return of witchcraft beliefs to contemporary society whilst assessing the effectiveness of international human rights law in protecting women from witchcraft accusations and persecution
