available services This book will take away the stress of the move to kindergarten giving parents key information and the how to s to make the transition as smooth as possible and be the best advocates for their child **Science and Politics** Brent S. Steel, 2014-04-21 Recent partisan squabbles over science in the news are indicative of a larger tendency for scientific research and practice to get entangled in major ideological divisions in the public arena This politicization of science is deepened by the key role government funding plays in scientific research and development the market leading position of U S based science and technology firms and controversial U S exports such as genetically modified foods or hormone injected livestock This groundbreaking one volume A to Z reference features 120 150 entries that explore the nexus of politics and science both in the United States and in U S interactions with other nations The essays each by experts in their fields examine Health environmental and social cultural issues relating to science and politics Concerns relating to government regulation and its impact on the practice of science Key historical and contemporary events that have shaped our contemporary view of how science and politics intersect *Science and Politics An A to Z Guide to Issues and Controversies* is a must have resource for researchers and students who seek to deepen their understanding of the connection between science and politics **The Mechanics of Passion** Alain Ehrenberg, 2020-09-23 Cognitive neuroscience once a specialized area of psychology and biology has enjoyed increased worldwide legitimacy in the last thirty years not only in psychiatry and mental health but also in fields as diverse as education economics marketing and law How can this surge in popularity be explained Has the new science of human behaviour now become the barometer of our conduct and our lives taking the place previously occupied by psychoanalysis Rather than asking if neuronal man will replace social man or how to surmount the opposition between the biological and the social *The Mechanics of Passions* uncovers hidden relationships between global social ideals and specialized concepts of neuroscience and cognitive science Proposing a historical sociology situated in the dual contexts of the history of sciences and the history of self representation Alain Ehrenberg describes the conditions through which cognitive neuroscience has developed and acquired a strong moral authority in our individualistic society permeated by ideas values and norms of autonomy Cognitive neuroscience offers the promise of turning personal limitations into assets by exploring an individual s hidden potential *The Mechanics of Passions* identifies this as the echo of social ideals of autonomy affirming that the moral authority of cognitive neuroscience stems as much from cultural norms as from any results of scientific or medical experimentation *Intelligent Love* Marga Vicedo, 2021-03-23 Winner of the History of Science Society s 2022 Davis Prize How one mother challenged the medical establishment and misconceptions about autistic children and their parents In the early 1960s Massachusetts writer and homemaker Clara Park and her husband took their 3 year old daughter Jessy to a specialist after noticing that she avoided connection with others Following the conventional wisdom of the time the psychiatrist diagnosed Jessy with autism and blamed Clara for Jessy s isolation Experts claimed Clara was the prototypical refrigerator mother a cold intellectual parent who starved her children of the natural affection they needed to

develop properly Refusing to accept this Clara decided to document her daughter s behaviors and the family s engagement with her In 1967 she published her groundbreaking memoir challenging the refrigerator mother theory and carefully documenting Jessy s development Clara s insights and advocacy encouraged other parents to seek education and support for their autistic children Meanwhile Jessy would work hard to expand her mother s world and ours Drawing on previously unexamined archival sources and firsthand interviews science historian Marga Vicedo illuminates the story of how Clara Park and other parents fought against medical and popular attitudes toward autism while presenting a rich account of major scientific developments in the history of autism in the US Intelligent Love is a fierce defense of a mother s right to love intelligently the value of parents firsthand knowledge about their children and an individual s right to be valued by society
