The Abortionist's Daughter Elisabeth Hyde, 2006-06-20 Two weeks before Christmas Diana Duprey an outspoken abortion doctor is found dead in her swimming pool A national figure Diana inspired passion and ignited tempers but never more so than the day of her death Her husband Frank a longtime attorney in the DA's office her daughter Megan a freshman in college the Reverend Stephen O Connell founder of the town's pro life coalition all of them quarreled with Diana that day and each one has something to lose in revealing the truth Meanwhile the detective on the case struggles for the answers and finds himself more intimately involved than he ever could have imagined The Abortionist's Daughter A Format Spec Elisabeth Hyde, 2009-07-01 Abortion, Choice, and Contemporary Fiction Judith Wilt, 1990-06-28 In recent years public debate has raged over the issue of maternal choice While personal testimony and political argument have received widespread attention artistic representations of birth and abortion have been submerged Judith Wilt offers the first look at how contemporary writers tell and retell the stories that shape our perceptions about abortion She reveals that the struggle to plot these painful complex narratives of choice control guilt loss and liberation has preoccupied an astonishing number of our most distinguished novelists male and female alike Readers of twentieth century novels are more likely to encounter plots centered on maternal choice than those dealing with the more traditional problems of courtship and marriage In the opening of the book Wilt discusses real case histories of several women After studying the ambiguities of their decisions she turns to their counterpoints depicted in contemporary fiction Working from a feminist perspective Wilt traces the theme of maternal choice in works by Margaret Atwood Margaret Drabble Joan Didion Mary Gordon Alice Walker Toni Morrison Gloria Naylor Marge Piercy Thomas Keneally Graham Swift Ernest Hemingway William Faulkner John Barth John Irving and others Behind the political medical and moral debates on abortion Wilt argues is a profound psychocultural shock at the recognition that maternity is passing from the domain of instinct to that of conscious choice Although never wholly instinctual maternity's potential capture by consciousness raises complex questions The novels Wilt discusses portray worlds in which principles are endangered by sexual inequality male power and hidden male fear of abandonment impotence female submission and covert rage and in the case of black maternity the hideous aftermath of slavery Wilt provides a resonant new context for debates whether political or personal on the issue of abortion and maternal choice Ultimately she enables us to rethink how we shape our own identities and lives **California and the Melancholic American Identity in Joan Didion's Novels** Katarzyna Nowak McNeice, 2018-12-07 California and the Melancholic American Identity in Joan Didion's Novels Exiled from Eden focuses on the concept of Californian identity in the fiction of Joan Didion This identity is understood as melancholic in the sense that the critics following the tradition of both Sigmund Freud and Walter Benjamin use the word The book traces the progress of the way Californian identity is portrayed in Joan Didion's novels starting with the first two in which California plays the central role Run River and Play It As It Lays through A Book of Common Prayer to Democracy and The Last Thing

He Wanted where California functions only as a distant point of reference receding to the background of Didion's interests. Curiously enough, Didion presents Californian history as a history of white settlement disregarding whole chapters of the history of the region in which the Californios and Native Americans among other groups played a crucial role. It is this reticence that the monograph sees as the main problem of Didion's fiction and presents it as the silent center of gravity in Didion's oeuvre. The monograph proposes to see the melancholy expressed by Didion's fiction organized into four losses of Nature, History, Ethics, and Language around which the main analytical chapters are constructed. What remains unrepresented and silenced comes back to haunt Didion's fiction and it results in a melancholic portrayal of California and its identity, which is the central theme this monograph addresses.
