Science Fiction analysis. Philip K. Dick's "Do Androids Dream of Electric Sheep?" Michael Kratky, 2007-02-22 Seminar paper from the year 2006 in the subject American Studies Literature grade 1.00 Catholic University Eichstätt Ingolstadt Sprach und Literaturwissenschaftliche Fakultät course Novel and Film language English abstract Do Androids Dream of Electric Sheep is one out of at least six novels by Philip K Dick that deal substantially with the questions surrounding androids It is exactly the distortion between the real as the jumping off point cited above and the hypothetical unreal fictional which creates a critical comment on the world the present reader lives in The special focus on humanlike androids in Do Androids Dream of Electric Sheep implies a particular philosophical issue Of course the somewhat murky obscure and intransparent depiction of androids involves the problem of man machine relationships which can to a certain extent be equated with human android relationships But Dick goes a step further pointing out the differences as well as the parallels between both the android and the human being using ambiguous descriptions and playing with the reader's sympathy for both sides One could even argue that Dick tried to create a kind of meeting halfway between man and android Certainly Dick himself faces difficulties when trying to define the android as a thing somehow generated to deceive us in a cruel way to cause us to think it to be one of ourselves This description meets exactly to core of our analysis which deals with the impact and the effects created by this somewhat ambiguous representation of human and android life Do Androids Dream of Electric Sheep? Doing Animal Studies with Androids, Aliens, and Ghosts David P. Rando, 2023-04-06 Exploring what can be learnt when literary critics in the field of animal studies temporarily direct attention away from representations of nonhuman animals in literature and towards liminal figures like androids aliens and ghosts this book examines the boundaries of humanness Simultaneously it encourages the reader both to see nonhuman animals afresh and to reimagine the terms of our relationships with them Examining imaginative texts by writers such as Octavia Butler Philip K Dick Kazuo Ishiguro Jeanette Winterson and J M Coetzee this book looks at depictions of androids that redefine traditional humanist qualities such as hope and uniqueness It examines alien visions that unmask the racist and heteronormative roots of speciesism And it unpacks examples of ghosts and spirits who offer posthumous visions of having been human that decenter anthropocentrism In doing so it leaves open the potential for better relationships and futures with nonhuman animals
