World Bank Environment Report:

Climate Change and the World Bank Group, 2009-01-01 Kenneth Chomitz was the evaluation manager and main author for this study P xiii **Engendering the Environment? Gender in the World Bank's Environmental Policies**

Priya A. Kurian, 2018-02-06 This title was first published in 2000 Priya Kurian's research offers environmental policy scholarship a new theoretically rich and empirically validated approach to understanding the significance of gender to environmental policy **The World Bank and the Environment** World Bank Staff, 1997-01-01 This publication contains the annual review for fiscal 1996 July 1995 June 1996 and a 10 year accounting of the project portfolio in a project matrix Appendix The annual review portion of the publication is divided into four sections an overview a series of regional review a set of reviews on a spectrum of environmental and social issues and a brief scan of relevant publications The environmental and social issues discussed include biodiversity conservation fostering global warming solutions through energy efficiency demand side management and renewable technologies linking physical environmental effects to economic impacts legal aspects of environmental management building strategic alliance to avoid duplicating efforts in environmental work Bank's work on pollution management and technology policy engaging private sector into environmental investments enhancing participatory approaches in decisionmaking and freshwater coastal and marine resource management In addition a new column called Reflection sets the context for the Bank's work in the larger global agenda drawn up in Rio's Agenda 21 in 1992 **Climate Change and the World Bank Group** World Bank, 2011-01-26 This study from the Independent

Evaluation Group draws lessons for development and climate change mitigation from the World Bank Group's far reaching portfolio of projects in energy forestry transport coal power and technology transfer Reviewing what has worked what hasn't and why the evaluation's key findings include Energy efficiency can offer countries direct economic returns that dwarf those of most other development projects while also reducing greenhouse gas emissions Tropical forest protected areas on average significantly reduce tropical deforestation preserving carbon and biodiversity Deforestation rates are lower in areas that allowed sustainable use by local populations than in strictly protected areas Deforestation rates were lowest of all in indigenous forest areas For renewable energy projects long duration loans have been important in making projects financially viable But at prevailing carbon prices carbon offset sales had little impact on most renewable energy projects rate of returns and did not address investors need for up front capital Technology transfer broadly understood to include diffusion of technical and financial innovations related to low carbon development has worked well when the logic of piloting and demonstration is well thought out and when grants are used to mitigate the risk of pioneering efforts **Sustainability**

Appraisal Barry Dalal-Clayton, Barry Sadler, 2014-03-26 Sustainability Appraisal is a sourcebook of the state of the art of this rapidly emerging and diversifying area It draws on a wealth of international experiences and approaches to illustrate the status and scope of Sustainability Appraisal Assessment SA This comprehensive guide highlights how SA can be used to

analyse and integrate the key environmental social and economic pillars of sustainability into decision making at all levels from policy to project to investment by government business and industry or international organizations Distilling both published and unpublished materials and with contributions from a range of leading experts organizations and agencies this book will be of significant value to professionals everywhere who are in need of a solid reference guide to what constitutes SA practice and more importantly how and when it can be applied **Globalization and the Environment** Pete

Newell,2013-04-24 Globalization and the Environment critically explores the actors politics and processes that govern the relationship between globalization and the environment Taking key aspects of globalisation in turn trade production and finance the book highlights the relations of power at work that determine whether globalization is managed in a sustainable way and on whose behalf Each chapter looks in turn at the political ecology of these central pillars of the global economy reviewing evidence of its impact on diverse ecologies and societies its governance the political structures institutions and policy making processes in place to manage this relationship and finally efforts to contest and challenge these prevailing approaches The book makes sense of the relationship between globalisation and the environment using a range of theoretical tools from different disciplines This helps to place the debate about the compatibility between globalisation and sustainability in an explicitly political and historical context in which it is possible to appreciate the nature of interests and power relations that privilege some ways of responding to environmental problems over others in a context of globalisation Structural

Adjustment And The Environment David Reed,2019-06-21 A publication having a provocative avocation as does this book is possible only with the support and sharp minds of many dedicated professionals Contributions from colleagues on five continents enabled this research endeavor to mature from an urgent although poorly formulated idea some three years ago to a serious study of the environmental impacts of policy based lending It is nothing short of a privilege to have benefited from the dedication and support of so many gifted colleagues who helped steer this study through methodological political and logistical thickets of many kinds Transnational Politics of the Environment Liliana B. Andonova,2003-11-21 A study of the effect of EU membership on Central and Eastern European environmental policy and the interplay of political incentives and industry behavior that determines policy In Transnational Politics of the Environment Liliana Andonova examines the effect of the European Union EU on the environmental policies of Bulgaria the Czech Republic and Poland Compliance with EU environmental regulations is especially onerous for Central and Eastern European countries because of the costs involved and the legacy of pollution from communist era industries But Andonova argues that EU integration has a positive impact on environmental policies in these countries by exerting a strong influence on the environmental interests of regulated industries With her empirical study of chemical safety and air pollution policies from 1990 to 2000 she shows that export competitive industries such as the chemical industry that would benefit from economic integration have an incentive to adopt EU norms By contrast industries such as electric utilities that primarily serve the domestic market remain opposed to EU

environmental standards and must be prodded by their own governments to implement environmental protection measures. These differences in domestic interests greatly influence the course of reforms and the adoption of EU standards. Transnational Politics of the Environment challenges the current focus on intergovernmental cooperation between East and West by highlighting the roles of industries, transnational norms and domestic institutions in promoting change in environmental regulation. It offers a generalizable framework for understanding the politics of environmental regulation in emerging market economies and helps bridge the divide between the study of domestic and international environmental politics.

The World Bank Group's Partnership with the Global Environment Facility The World Bank, 2015-11-18. The World Bank Group was a principal founding partner of the Global Environment Facility (GEF) in its pilot phase in 1991 and of the restructured GEF in 1994. The Bank plays three different roles in the GEF: a) as trustee of the GEF and related trust funds; b) as implementing agency including the implementation of private sector GEF projects by the International Finance Corporation (IFC) and c) as the host organization of the functionally independent GEF secretariat. Focusing primarily on the role of the Bank as an implementing agency, this review documents how the partnership that the GEF and the World Bank Group established in the early 1990s has evolved over time, offers explanations for observed changes and draws a number of lessons. The review addresses the following issues: The mutual relevance of the World Bank Group and the GEF; Inter-organizational coordination along the World Bank Group GEF project cycle; The introduction of the GEF's resource allocation systems in 2006 and 2010; The evolution and effectiveness of the Bank Group's GEF portfolio; Catalytic approaches in the Bank Group GEF partnership; co-financing, blending and mainstreaming; The World Bank's corporate activities as a GEF implementing agency. The principal purposes of this review are: a) to help improve the relevance and effectiveness of the Bank Group's partnership with the GEF and b) to draw lessons for the Bank Group's partnership with the GEF and other large global partnership programs.

The World Bank in a Changing World Ibrahim F.I. Shihata, James D. Wolfensohn, 2023-12-18. **Coping with Global Environmental Change, Disasters and Security** Hans Günter Brauch, Úrsula Oswald Spring, Czesław Mesjasz, John Grin, Patricia Kameri-Mbote, Béchir Chourou, Pál Dunay, Joern Birkmann, 2011-02-03. *Coping with Global Environmental Change: Disasters and Security Threats, Challenges, Vulnerabilities and Risks* reviews conceptual debates and case studies focusing on disasters and security threats, challenges, vulnerabilities and risks in Europe, the Mediterranean and other regions. It discusses social science concepts of vulnerability and risks, global, regional and national security challenges, global warming, floods, desertification and drought as environmental security challenges, water and food security challenges and vulnerabilities, vulnerability mapping of environmental security challenges and risks, contributions of remote sensing to the recognition of security risks, mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions.

The World Bank Devesh Kapur, John P. Lewis, Richard C. Webb, 2010-12-01. This effort constitutes the most comprehensive and authoritative work to date on the history of the

International Bank for Reconstruction and Development or the World Bank Author editors John Lewis Richard Webb and Devesh Kapur chronicle the evolution of this institution and offer insights into its successes failures and prospects for the future The result of their intense labors is an invaluable resource for other researchers and a fascinating study in its own right The work is divided into two volumes The first is organized thematically and examines the critical events and policy issues in the World Bank s development over the last fifty years Chapter topics include poverty alleviation structural adjustment lending environmental programs the International Finance Corporation IFC the International Development Association IDA and the evolution of the Bank as an institution The second volume contains case studies written by experts with experience in the various regions in which the Bank operates There are chapters on the Bank s activities in Korea Mexico Africa South Asia and Eastern Europe Volume 2 also contains essays on the World Bank s relationship with the United States Japan and Western Europe and its partnership with the International Monetary Fund IMF By special arrangement the authors have had wide ranging access to confidential documents at the World Bank making this work a unique source of information on the internal workings of this critical institution They have also drawn on extensive interviews with current and past Bank officials Moreover publication could not be more timely coming as it does when many in the development community and in the U S Congress are questioning the Bank s track record and even its reason for existence The World Bank Its First Half Century will be of great interest not only to development practitioners but also to students of international relations development economics and global finance During the course of the project John P Lewis and Richard Webb were nonresident senior fellows and Devesh Kapur was a program associate in the Foreign Policy Studies program at the Brookings Institution

Sustaining Forests World Bank, 2004-05-01 The World Bank s Forests Strategy adopted in October 2002 charts a path for the Bank s proactive engagement in the sector to help attain the goal of poverty reduction without jeopardizing the environmental values intrinsic to sustainability This strategy replaces the Bank s 1991 Forestry Strategy and was developed on the basis of the findings of an independent review of the 1991 strategy and a two year consultative process with development partners and stakeholders around the world The revised strategy Sustaining Forests is built on three guiding pillars harnessing the potential of forests to reduce poverty integrating forests into sustainable economic development and protecting global forest values Recognizing the key role forests play in contributing to the livelihoods of people living in extreme poverty government and local ownership of forest policies and interventions are emphasized along with the development of appropriate institutions to ensure good governance and the mainstreaming of forests into national development planning The strategy also aims to support ecologically socially and economically sound management of production forests by ensuring good management practices through application of safeguard procedures and independent monitoring and certification Implementation of the strategy will center on building and strengthening partnerships with the private sector non governmental organizations and other donor agencies to promote better forest

Environmental Change and the World's Futures Jonathan Paul Marshall,Linda H. Connor,2015-08-27 Climate change and ecological instability have the potential to disrupt human societies and their futures Cultural social and ethical life in all societies is directed towards a future that can never be observed and never be directly acted upon and yet is always interacting with us Thinking and acting towards the future involves efforts of imagination that are linked to our sense of being in the world and the ecological pressures we experience The three key ideas of this book ecologies ontologies and mythologies help us understand the ways people in many different societies attempt to predict and shape their futures Each chapter places a different emphasis on the linked domains of environmental change embodied experience myth and fantasy politics technology and intellectual reflection in relation to imagined futures The diverse geographic scope of the chapters includes rural Nepal the islands of the Pacific Ocean Sweden coastal Scotland North America and remote rural and urban Australia This book will appeal to researchers and students in anthropology sociology environmental studies cultural studies psychology and politics **World Bank East Asia and Pacific Economic Update, April 2025** Weltbank,2025 East Asia

and the Pacific remains one of the most dynamic regions in the world Yet when measured against its own past performance and potential the region has under performed Growth in most economies and even output in several Pacific Island economies has not returned to pre pandemic levels Now rising global uncertainty is further dampening regional economic prospects Uncertainty increases financing costs and hurts business and consumer confidence inhibiting investment and consumption However short term uncertainty should not obscure long term trends in globalization climate and demographics that will affect trade growth and jobs in the EAP region These development challenges have been individually discussed in past Updates But an integrated analysis may help policymakers take a longer view through the current fog of uncertainty of what ultimately matters and what needs to be done This report illustrates the benefits of a synchronized three pronged approach harnessing technological change pursuing domestic reforms and deepening international cooperation Globalization and Environmental Challenges Hans Günter Brauch,Úrsula Oswald Spring,Czeslaw Mesjasz,John Grin,Pál Dunay,Navnita Chadha
