Planet Earth

How much do you know about your home? No, not the house or apartment you live in—our planet, Earth. It's big and round, and it's where we all live. Can you name the continents and the oceans? Do you know where the coldest place on the Earth is found? Do you know the Earth's largest island? This issue will give you lots of information about your home, planet Earth!

Get in groups of six, or eight and get a globe in the middle of each group. (You'll probably need to borrow some globes from other classrooms.) Look at the large bodies of water on the planet. Did you know the Pacific Ocean is the largest and deepest of all the oceans? See all those large landmasses? You probably know they are called continents. Some books say there are seven continents, with the Ural Mountains of Russia being the dividing line between Europe and Asia. Others say there is only one continent, Eurasia. Scientists say the continents are about 25 miles thick (40-kilometers). You'll need a very big shovel to dig to the other side. Did you know the landmasses on the Earth are constantly moving?

Don't worry, you don't need a seat belt. The continents are only moving about 1 to 3 inches a year.

Next, find India or Italy. These countries are called peninsulas. A peninsula is land that is surrounded on three sides by water. Can you find other examples?

Find the water separating the state of Alaska from Russia. This is called the Bering Strait. A strait is a narrow section of water connecting two larger bodies of water. Can you name these bodies of water? The opposite of a strait is called an isthmus. Can you find a long narrow body of land connecting two larger bodies of land? Central America is probably the most famous isthmus. It connects North and South America.

Find the European country of Switzerland. Like the states of Iowa and Kansas, Switzerland is a landlocked area. Landlocked means it doesn't touch any bodies of water. Can you find other countries of the world that are

Philanthropy and Values

Maybe you have heard the word "philanthropy" before. What does it mean? It describes actions that people make for the good of other people. What is a value? It's a way of believing that people believe is good—like believing it's good to be honest. Is honesty one of your values?

One way you can practice philanthropy today is to help yourself and others learn good values. How do you learn good values? You can learn them from

Sent 19 poor
kids to college.

HELPING OTHERS
Since 1991, Values.com has helped over 100,000 people learn good values.

your parents and grandparents, your teachers at school or church and other people you trust.

You can also learn them from people that have been recognized for doing good things for society. An easy way to learn about people that have done good things is to visit

values.com. Values.com has lots of stories and short videos that highlight the traits that make each of us better people. They even have billboards on the

highway to remind you about good values.

For example, you may have seen a billboard that looks like the one shown here.

This billboard is about Orel Lee Brown, who saved money from her job to send 19 kids to college...all by herself! Wow! Isn't that cool? You can learn about lots of other people who practice philanthropy at values.com. Be sure to look for more of their "billboards" on Page 4 of Studies Weekly this year. We think they're so cool we want to remind you to check them out!

Educating the Romantic Poets Catherine E. Ross, 2023-10-15 *Educating the Romantic Poets* Life and Learning in the Anglo Classical Academy 1770-1850 explores how the public and endowed grammar schools and the colleges of Oxford and Cambridge trained some of the most important writers, critics and public figures of the Romantic period. These institutions are recognized here as intentional partners and are discussed collectively as the Anglo classical academy. The book shows how they not only schooled students in classics, maths and divinity but also in accepted social behaviours, cultural values, political beliefs and literary tastes. In so doing, this academy gave shape to the literature and spirit of the age. By discussing the schools and the universities together and by focusing upon pedagogies and daily life as well as the texts and topics studied, this book shows as no other has done how writers and readers of the late eighteenth and early nineteenth centuries became such fluent linguists, skilled prosodists and perceptive critics. As each chapter explores and comments upon the relational, intellectual and cultural aspects of the Anglo classical educational experience, it directs readers' attention to the ways in which this information can be used to reread texts, reassess certain Romantics' literary careers and launch new lines of research.
