The Reemergence of World Literature Alfred Owen Aldridge,1986 Argues that the discipline of comparative literature should be expanded to include all of the world not only a favored segment and that translation represents a legitimate and indispensable tool for readers *Statutes and Ordinances of the University of Cambridge 2008* University of Cambridge,2008-09-25 This is the latest updated edition of the University of Cambridge's official statutes and Ordinances *Into Our Labours* Neil Lazarus,2022-04-15 Into our Labours explores the literary representation of work across the globe since 1850 setting out to show that the literature of modernity is best understood in the light of the worlding of capitalism The book proposes that a determinative relation exists between changing modes of work and changes in the forms genres and aesthetic strategies of the writing that bears witness to them Two aspects of the worlding of modernity especially are emphasised First an inaugural experience of capitalist social relations whose literary registration sometimes makes itself known through a crisis of representation as the forms of space and time consciousness demanded by life in

contexts in which market oriented commodity production has become the dominant form of social labour are counterposed with inherited ways of seeing and knowing now under acute pressure if not already obsolete Second a moment corresponding to the consolidation regularisation and global dispersal of capitalist development Into Our Labours focuses on the naturalisation of capitalist social relations forms of sociality and solidarity ideologies of familialism individualism and work relations between the sexes and the generations Arguing that the only plausible term for the vast body of literary work engendered by the worlding of capitalist social relations is modernist the book proposes that it is then important to challenge the still entrenched Eurocentric understandings of modernism Modernism is neither originally nor paradigmatically Western in provenance and its temporal parameters are much broader than are usually assumed in modernist studies extending both backward and forward in time
