### Human Population Growth Graphing Activity

#### Objectives:

1. You will create a graph of human population growth and use it to predict future growth.
2. You will identify factors that affect population growth.

Statistics on Human Population Year	Number of People (in billions)
1650	.50
1750	.70
1850	1.0
1925	2.0
1956	2.5
1966	3.3
1970	3.6
1974	3.9
1976	4.0
1980	4.4
1991	5.5
2000	6.0
2004	6.4
2009	6.8

#### **Instructions for creating your graph.**

1. Place time on the horizontal access. Values should range from 1650 to 2050.
2. Place number of people on the vertical access. Values should range from 0 to 20 billion.
3. Make sure that your graph is a full page in size and you have the correct labels for the X and Y access and a title for your graph.

#### **Analysis #1 (answer on separate paper)**

1. It took 1649 years for the world population to double, going from .25 billion people to .50 billion people. How long did it take for the population to double once again?
2. How long did it take for the population to double a second time? A third time?
3. Based on your graph, in what year will the population reach 8 billion?
4. Based on your graph, how many years will it take for the population of 2009 to double?

#### **The Earth's Carrying Capacity**

Prior to 1950, the death rate was high, which kept the numbers of humans from increasing rapidly. In the 19th Century, the agricultural revolution increased food production. The industrial revolution improved methods of transporting food

**Transforming Global Health Partnerships** Anna Stewart Ibarra, A. Desiree LaBeaud, 2024-12-31. This is a book about the human experience of conducting global health research linked to operational responses to the control and prevention of diseases worldwide. Rather than a manual or how to guide, we propose a roadmap and vision of equitable, sustainable, and impactful partnerships shared through a rich interweaving of voices: North and South academics and community practitioners, senior mentors and trainees, multiple generations, and multiple disciplines. We focus on the stories that need to be told, the successes and the failures, and visions for a healthier and more compassionate future for humanity. This book was written by more than 90 authors from 26 countries, bringing diverse perspectives on global health partnerships past, present, and future. Although many of the chapters use examples related to infectious diseases, the ideas in this book are relevant to the broader field of global health research and practice. This book is organized into three sections broadly related to foundational concepts, present experiences, case studies, and future visions. The first section focuses on the historical colonial legacy of global health and the foundations needed for equitable partnerships, introducing key themes explored throughout the book. These include concepts related to decolonization, ethics, gender systems, approaches, and transdisciplinary science. Planetary Health One

Health team science and communication The book s second section draws on case studies of global health partnerships to understand where we are today in global health Authors share their experiences responding to global health threats including disease outbreaks refugee health stigma and sexually transmitted diseases and post disaster community recovery The book s third section articulates a new vision for global health partnerships to co create a more peaceful equitable and loving world This vision is urgently needed to address the challenges emerging in the context of global climate change the COVID 19 pandemic and other human threats This is an open access book      **Anthropogenic Solutions for Climate**
