Certain Victory: Images of World War II in the Japanese Media David C. Earhart,2015-06-01 This unique window on history employs hundreds of images and written records from Japanese periodicals during World War II to trace the nation s transformation from a colorful cosmopolitan empire in 1937 to a bleak total war society facing imminent destruction in 1945 The author draws upon his extensive collection of Japanese wartime publications to reconstruct the government controlled media s narrative of the war s goals and progress thus providing a close up look at how the war was shown to Japanese on the home front Many of these visual and written sources are rare in Japan and were previously unavailable in the West Strikingly the narrative remains consistent and convincing from victory to retreat and even as defeat looms large Earhart s nuanced reading of Japan s wartime media depicts a nation waging war against the world and a government terrorizing its own people At once informed scholarly and readily accessible this lavishly illustrated volume offers an accurate representation of the official Japanese narrative of the war in contemporary terms The images are fresh and compelling revealing a forgotten world by turns familiar and alien beautiful and stark poignant and terrifying
