The Changing Military Balance in the Koreas and Northeast Asia Anthony H. Cordesman, Aaron Lin, 2015-07-07 The tensions between the Koreas and the potential involvement of China Japan Russia and the United States in a Korean conflict create a nearly open ended spectrum of possible conflicts These conflicts could range from posturing and threats to a major conventional conflict on the Korean peninsula with intervention by outside powers to the extreme of nuclear conflict The Korean balance is also affected by the uncertain mix of cooperation and competition between the United States and China particularly with the U S pivot toward Asia and the steady modernization of Chinese forces This new volume up to date through Spring 2015 provides a detailed examination of the military forces in Northeast Asia North and South Korea China Russia Japan and the United States setting those forces in the larger geostrategic context

ways Libicki provides the technical and geopolitical foundations of cyberwar necessary to understand the policies operations and strategies required for safeguarding an increasingly online infrastructure **Report to Congress of the U.S.-China Economic and Security Review Commission** U.S.-China Economic and Security Review Commission,2016 **The Gulf Military Balance** Anthony H. Cordesman,Bryan Gold,2014-03-12 The United States faces major challenges in dealing with Iran the threat of terrorism and the tide of political instability in the Arabian Peninsula The presence of some of the world s largest reserves of oil and natural gas vital shipping lanes and Shia populations throughout the region have made the peninsula the focal point of US and Iranian strategic competition Moreover large youth populations high unemployment rates and political systems with highly centralized power bases have posed other economic political and security challenges that the Gulf states must address and that the United States must take into consideration when forming strategy and policy

Iran's Deadly Ambition Ilan Berman,2016-12-06 Are we on the cusp of détente with Iran Conventional wisdom certainly seems to believe so Since the start of diplomacy between the Islamic Republic and the P5+1 powers the United States France England Russia China Germany in November 2013 hopes have been running high for a historic reconciliation of Iran s clerical regime with the West Yet there is ample reason for skepticism that the United States and its allies can truly curb Iran s nuclear ambitions by diplomatic means Moreover the West s current focus on Iran s nuclear program is deeply dangerous insofar as it fails to recognize let alone address Iran s other international activities or its foreign policy aims Those objectives are global and they continue to grow in scope and menace In this sobering book Ilan Berman illuminates the multiple dimensions of the Iranian threat and exposes the perils of lodging confidence in diplomacy with the Islamic Republic The 2007 Iran Nuclear Estimate Revisited Robert Jervis,James J. Wirtz,2022-05-12 The 2007 Iran Nuclear Estimate Revisited Anatomy of a Controversy explores both the contents and reaction to the U S intelligence community s IC National Intelligence Estimate NIE that Iran had suspended its clandestine program to develop nuclear weapons The volume offers insights into the art of intelligence analysis and the issues encountered when estimates run counter to policy or partisan preferences In November 2007 the U S National Intelligence Council issued an NIE entitled Iran s Nuclear Intentions and Capabilities that contained a surprising finding Analysts concluded that Iran had probably suspended its clandestine effort to develop a nuclear weapon This assessment created a political firestorm despite the fact that analysts went to great lengths to assess the accuracy of their sources and to offer nuanced judgments about the complex issues surrounding Iran s civilian and military nuclear programs In this edited volume former intelligence professionals and leading intelligence scholars describe and assess the factors that shaped this NIE and the course of events that sparked an international controversy These chapters make a valuable contribution to the understanding of the state of the art when it comes to intelligence analysis and the challenges that emerge when intelligence estimates address significant foreign and defence policy issues and on going political debates One of the chapters in this volume was originally published in the book titled Routledge Companion to

Intelligence Studies edited by Robert Dover Michael Goodman Claudia Hillebrand Other chapters were originally published in the journals Intelligence and National Security and Comparative Strategy **The American Edge** Seth G.

Jones,2025-11-03 In The American Edge Seth G Jones explains how the industrial bases of the world s great military powers have risen and fallen over the past century and what it means for America Today the US s military base lacks the capacity and flexibility necessary to deter China s growing military power but the country s private sector is flourishing with companies including SpaceX Microsoft and Anduril exhibiting tremendous innovation To regain its capacity to effectively deter China and retain its unmatched status the US must deepen its partnerships with the nation s most innovative tech companies Commerce, Justice, Science, and Related Agencies Appropriations for 2015 United States. Congress. House.

Committee on Appropriations. Subcommittee on Commerce, Justice, Science, and Related Agencies,2014 **Parameters**,2014 **Hybrid Threats and Grey Zone Conflict** Mitt Regan,Aurel Sari,2024 Hybrid Threats and Grey Zone Conflict

explores the legal dimension of strategic competition below the threshold of war assessing the key legal and ethical questions posed for liberal democracies Bringing together diverse scholarly and practitioner perspectives the volume introduces readers to the conceptual and practical difficulties arising in this area the rich debates the topic has generated and the challenges that countering hybrid threats and grey zone conflict poses for liberal democracies *The U.S. Cybersecurity and Intelligence Analysis Challenges* John Michael Weaver,2022-03-02 One of the prevailing issues regarding security to

North America and more pointedly the United States gravitates on the topic of cyber threats confronting this nation These threats are becoming more disruptive and destructive and many nations infrastructure is vulnerable to them This book makes use of a qualitative research methodology looking at a conventional understanding of the four instruments of power that include diplomacy information military and economic D I M E efforts through the use of the York Intelligence Red Team Model Cyber Modified and seeing how adversaries are using them against the United States Moreover this project uses secondary data and makes use of the Federal Secondary Data Case Study Triangulation Model to ensure a balance of sources to dissect the problem **Chinese Strategy and Military Modernization in 2015** Anthony H. Cordesman,Steven

Colley,2016-01-12 China s emergence as a global economic superpower and as a major regional military power in Asia and the Pacific has had a major impact on its relations with the United States and its neighbors China was the driving factor in the new strategy the United States announced in 2012 that called for a rebalance of U S forces to the Asia Pacific region At the same time China s actions on its borders in the East China Sea and in the South China Sea have shown that it is steadily expanding its geopolitical role in the Pacific and having a steadily increasing impact on the strategy and military

developments in other Asian powers The Arab-U.S. Strategic Partnership and the Changing Security Balance in the Gulf Anthony H. Cordesman,2015-11-10 The ongoing confrontation with Iran the war against ISIL the instability in Iraq the Civil war in Syria and the conflict in Yemen have all caused major changes in the security situation in the Persian Gulf and in the

regional military balance The strategic partnership between Arab Gulf states and with the United States and other outside states must now evolve to deal with conventional military threats and a range of new threats including ideological extremists non state actors and their state sponsors and a growing range of forces designed to fight asymmetric wars This new report from the CSIS Burke Chair in Strategy provides a 2015 assessment of the Gulf military balance the military capabilities of each Gulf state the role of the United States as a security partner and the priorities for change in the structure of both the Gulf Cooperation Council and the Arab Gulf military partnership with the United States The assessment goes far beyond the conventional military balance and examines how force developments in the region affect joint and asymmetric warfare missiles and missile defense nuclear forces as well as terrorism the role of non state actors and outside powers

Joseph Margulies, 2013-05-21 DIV Beautifully written and carefully reasoned this bold and provocative work upends the conventional wisdom about the American reaction to crisis Margulies demonstrates that for key elements of the post 9 11 landscape especially support for counterterror policies like torture and hostility to Islam American identity is not only darker than it was before September 11 2001 but substantially more repressive than it was immediately after the attacks These repressive attitudes Margulies shows us have taken hold even as the terrorist threat has diminished significantly Contrary to what is widely imagined at the moment of greatest perceived threat when the fear of another attack hung over the country like a shroud favorable attitudes toward Muslims and Islam were at record highs and the suggestion that America should torture was denounced in the public square Only much later did it become socially acceptable to favor enhanced interrogation and exhibit clear anti Muslim prejudice Margulies accounts for this unexpected turn and explains what it means to the nation's identity as it moves beyond 9 11 We express our values in the same language but that language can hide profound differences and radical changes in what we actually believe National identity he writes is not fixed it is made div

Cyber Politics In Us-china Relations Cuihong Cai, 2021-07-29 Cyber issues are of utmost importance and sensitivity for US China relations today The combination of cyber and politics is also developing from low politics to high politics This book discusses cyber politics in US China relations from four distinct aspects first the overall analysis of the role and manifestation of cyber politics in international relations from a theoretical perspective second the main issues regarding cyber politics in US China relations third the factors influencing cyber politics in US China relations and fourth the prospect and practice of cyber politics in US China relations Based on an exploration of issues in cybersecurity cyberspace governance ideology and the power tussle in cyberspace between the US and China as well as an analysis of the factors influencing cyber politics in the bilateral relations from the perspectives of strategy discourse and trust this book asserts that cyberspace is rapidly becoming a new arena for the geopolitical games between the US and China A new form of cyber geopolitics is thus emerging **The COVID-19 Intelligence Failure** Erik J. Dahl, 2023-02-01 An in depth analysis of why COVID 19 warnings failed and how to avert the next disaster Epidemiologists and national security agencies warned for years about the potential for a deadly pandemic but in the end global surveillance and warning systems were not enough to avert the COVID 19 disaster In The COVID 19 Intelligence Failure Erik J Dahl demonstrates that understanding how intelligence warnings work and how they fail shows why the years of predictions were not enough In the first in depth analysis of the topic Dahl

examines the roles that both traditional intelligence services and medical intelligence and surveillance systems play in providing advance warning against public health threats and how these systems must be improved for the future For intelligence to effectively mitigate threats specific tactical level warnings must be collected and shared in real time with receptive decision makers who will take appropriate action Dahl shows how a combination of late and insufficient warnings about COVID 19 the Trump administration s political aversion to scientific advice and decentralized public health systems all exacerbated the pandemic in the United States Dahl s analysis draws parallels to other warning failures that preceded major catastrophes from Pearl Harbor to 9 11 placing current events in context The COVID 19 Intelligence Failure is a wake up call for the United States and the international community to improve their national security medical and public health intelligence systems and capabilities
