musically structured participatory activity known as worship Congregational music making is thereby recast as a practice capable of weaving together a religious community both inside and outside local institutional churches Congregational music making is not only a means of expressing local concerns and constituting the local religious community it is also a powerful way to identify with far flung individuals institutions and networks that comprise this global religious community The interactions among the congregations reveal widespread conflicts over religious authority carrying far ranging implications for how evangelicals position themselves relative to other groups in North America and beyond *Small Group Leaders'*

Guide to Womens Studies 1998 New York Public Library Staff, 1999-08 **Congregational Music, Conflict and Community** Jonathan Dueck, 2017-04-28 *Congregational Music Conflict and Community* is the first study of the music of the contemporary worship wars conflicts over church music that continue to animate and divide Protestants today to be based on long term in person observation and interviews It tells the story of the musical lives of three Canadian Mennonite congregations who sang together despite their musical differences at the height of these debates in the late 1990s and early 2000s Mennonites are among the most music centered Christian groups in North America and each congregation felt deeply about the music they chose as their own The congregations studied span the spectrum from traditional to blended to contemporary worship styles and from evangelical to liberal Protestant theologies At their core the book argues worship wars are not fought in order to please congregants musical tastes nor to satisfy the theological principles held by a denomination Instead the relationships and meanings shaped through individuals experiences singing in the particular ways afforded by each style of worship are most profoundly at stake in the worship wars As such this book will be of keen interest to scholars working across the fields of religious studies and ethnomusicology
