best and learn the most when they witness their teachers modeling the characteristics they profess to value in their classrooms in other words when they see their teachers practice what they preach If teachers are going to hold themselves true to this adage then not only do they have a responsibility to practice what they preach but they must also be deliberate about what they preach in the first place Practice What You Preach Teacher Accountability and Personal Values explores how teachers can preach the values that matter most in the classroom and provides practical strategies for how to put those

values into practice Each chapter focuses on a different value that is worthy of investing time and energy into as an educator and worthy of being preached and practiced through integrating them into curriculum outcomes lessons Teachers who put into practice the values that they preach reap the rewards of respectful and engaged students Students likewise reap rewards of self confidence determination and a love of learning when those same values are modeled by their teachers

Saved from Mediocrity James M. Holder Sr.,2009-04 When I used to read in Romans seven where Paul writes about his struggle with sin I would very much identify with his words life for me was a struggle Sure I was a Christian but the joy contentment and abundance that was promised in the Bible was not a reality Financial hardship relational frustrations and confusion about what God expected of me were driving a wedge in my relationship with my Savior and it needed to change What must I do I thought to move from a Romans seven life to a Romans eight Spirit filled life free from the burdens that were weighing me down This book records the journey I made from that burden filled life into a Spirit filled life using the Biblical book of Joshua as a backdrop You too can find this freedom by taking one simple step of faith into the perfect will of God James M Holder I find it funny when I read the author bio on the back of books It s generally written by the author usually contains his or her name several letters behind that name and a description of how qualified they are to be writing a

The road Those that travel for business know what I mean by the challenge of the road The road is hard from staying in shape eating and getting any rest to keeping up with the work connecting with your family back home and just finding a few minutes to yourself to think and catch your breath Then you add the relentless distractions and temptations that only a road warrior knows and experiences The evil one whispers everything from Nobody will ever know to It s the cost of doing business to win or keep the deal so it s okay right The guilt shame and regret of the spiritual road warrior are all too often overwhelming and paralyzing One of my biggest challenges on the road is not only finding time alone with God but specially reading something that can relate to my life as a business traveler Until now So why David And what does he have to do with the life of a business traveler Plenty Sheila's Bucket Johannes Black,2013-11-25 Chants of Whack em Whack em signal the creation of the University Anti Corruption Movement UACM a movement that will find itself in the center of a tempest including a financial scandal and a tragic act of violence that ends up galvanizing an entire city state and nation As an increasingly intransigent university administration continues to ignore a student strike the protesters slowly escalate their action as does the police captain in charge of crowd control When rumors of student abductions begin to surface things really begin to get out of hand It is in this powder keg environment that a fall semester begins and ends for the soon to retire university president Arlan Bellows and political science majors Kyle Remington and Sheila MacLise Sheila s Bucket is a novel set on an unnamed university campus in the United States It addresses the issue of higher education affordability and the ever increasing debt today s students get saddled with before that first job
