Thalen & Thalen. Scenes Rob Thalen, Jaap Thalen, 2014-07-17 Jeroen Martens Director of the Sterckshof Silver Museum in Antwerp describes the work of silversmiths Rob and Jaap Thalen as following It is striking how father and son Thalen excel in knowledge of both traditional and contemporary techniques of the silversmith craft The purity and apparent simplicity of their designs give their work the semblance of effortlessness It is a testament to their excellent craftsmanship What drives them in their work is their passion and love for silver But it is their talent for design and their understanding of the possibilities of fine silver that make the work of Thalen Thalen so special Their most recent work is both practical and beautifully crafted in terms of purity Their designs bring silver back into everyday life Their work includes both unattainable art objects as well as very accessible wine and champagne cups cutlery sugar bowls Their creations made of the finest silver are inspired by the beautiful landscapes of the Ardennes and the sometimes harsh climate that fashions them The tactile surfaces of their creations are reminiscent of the harrowing landscapes the wild brooks and sometimes even of ruptured clay left behind in a dry river bed This is Rob and Jaap Thalen s second book and at the same time a catalogue of their exhibition in the Silver Museum Text in English Dutch French and German Wolf's Cub Mackay Wood, 1998-09 A fantasy on a conflict between love and duty in which a prince forsakes the woman he loves for an arranged marriage The other woman is a princess from a neighboring kingdom and her magical powers will make the prince s land more secure A first novel

Collective Skill Formation in the Knowledge Economy Giuliano Bonoli, Patrick Emmenegger, 2022-09-22 Interest in collective skill formation systems has been high for a long time but recent structural economic and societal developments have led commentators to question their viability In particular the shift towards a knowledge economy creates a number of challenges for these highly praised systems of vocational training These challenges relate to the growing importance of knowledge intensive production in advanced economies and with the accelerated pace of change due to innovation and globalization What is more these issues are compounded by coinciding developments in growing inequality and the emergence of multicultural societies Can collective skill formation systems adapt fast enough to the needs of the knowledge economy Can they continue to be as successful as they have been in the past in integrating youth in the labour market Will employers be willing to participate in the delivery of vocational training in this new context In this book a world class team of leading experts on collective skill formation systems provide a thorough discussion of these and other questions raised by the shift to a knowledge economy The book argues that collective skill formation systems remain attractive for firms and governments However continuous and profound adjustments will be needed if they are to fulfil their objectives in terms of equity and efficiency Mining North America John R. McNeill, George Vrtis, 2017-07-11 Over the past five hundred years

North Americans have increasingly turned to mining to produce many of their basic social and cultural objects. From cell phones to cars and roadways, metal pots to wall tile and even talcum powder, mineral intensive products have become central to modern North American life. As this process has unfolded, mining has also indelibly shaped the natural world and North Americans' relationship with it. Mountains have been honeycombed, rivers poisoned, and forests leveled. The effects of these environmental transformations have fallen unevenly across North American societies. *Mining North America* examines these developments. Drawing on the work of scholars from Mexico, the United States, and Canada, this book explores how mining has shaped North America over the last half millennium. It covers an array of minerals and geographies while seeking to draw mining into the core debates that animate North American environmental history. Generally taken together, the authors' contributions make a powerful case for the centrality of mining in forging North American environments and societies.

The Island of Second Sight Albert Vigoleis Thelen, 2012-09-13. Unavailable to English readers for more than 50 years, *The Island of Second Sight* is a masterpiece of world literature. Set in the years leading up to World War II, it is the fictionalized account of the time spent in Mallorca by the author and his wife, who encounter the most unpredictable and surreal adventures pursued all the while by Nazis and Francoists. And just as the chaos comes to seem manageable, the Spanish Civil War erupts. Drawing comparisons to *Don Quixote* and *The Man Without Qualities*, *The Island of Second Sight* is a novel of astonishing and singular richness of language and purpose. At once ironic and humanistic, hilarious and profoundly serious, philosophical and grotesque, *The Island of Second Sight* is a literary tour de force. **Fostering Learning in Small Groups**

Jane Westberg, PhD, Hilliard Jason, MD, EdD, 2004-01-01. Drawing on years of experience, the authors address the questions that educators may have about teaching small groups in the health professions. The first half of the book focuses on practical strategies involved in planning and facilitating learning in small groups. The authors discuss the characteristics of effective groups and emphasize the importance of using a collaborative approach. The second half focuses on planning for leading small groups that have specific purposes such as providing a forum for discussion and dialogue, teaching communication skills, and helping learners to reflect on their patient care experience and more. The book's broad orientation and practical emphasis will be useful to all educators in health care. **Film Bulletin**, 1982. *Catalog of Copyright Entries, Third Series*, 1969.
