

THAT

VS

WHICH

Both these words can be used in many different contexts in a sentence but when one of the two is needed as a relative pronoun, a real nightmare can start. However, don't start panicking: with which and that, there's a perfectly logical explanation that will help you always use only the correct word.

USAGE

- According to the **American English** rules, **THAT** should be used when you have a **restrictive, or an essential clause**.
- Restrictive clause is the one that you can't just get rid of.
- Restrictive clause doesn't need commas.

EXAMPLES

- All visitors **that** are underaged must be accompanied by their parents.
- There's the man **that** I saw yesterday.

USAGE

- **WHICH** should be used when the **clause is nonrestrictive, or nonessential**.
- Nonrestrictive clause isn't necessary.
- Nonrestrictive clause needs commas.
- If you have a preposition and need a relative pronoun, you can only use which.

EXAMPLES

- My house, **which** is located in Texas, was built fifty years ago.
- They entered the shop, **which** was a curious ramshackle building.

British writers use either which or that not depending on whether the clause is essential or nonessential but simply because they feel like it. If you want to follow all the rules, remember that you can throw all the "whiches" out without losing any of the meaning, while all the "thats" should stay in place. If you remember this, you'll have no problem figuring out when to use each pronoun.
