Psychoanalysis and Ethics Ernest Wallwork,1991-01-01

Psychoanalysis has had a profound impact on popular morals for Freud's discoveries have made us aware that unconscious motivations may subvert moral conduct and that moral judgments may be rationalizations of self interest or expressions of hostility. Freud has in fact been called a founder of the hermeneutics of suspicion that pervades modern attitudes toward morality. In this book however a psychoanalyst who is also a professor of ethics asserts that we do not accurately understand Freud on the various psychological issues relevant to morality and the ethical implications that can be drawn from his views. Ernest Wallwork offers a bold reinterpretation of Freudian theory showing the ways in which it points toward the possibility of genuine moral behavior. Wallwork provides close textual analyses of Freud's works from a new philosophical perspective considering such central Freudian doctrines as psychic determinism, the pleasure principle, narcissism, object love and defense mechanisms. He demonstrates that contrary to widespread belief, Freud's views on determinism allow for moral responsibility; his understanding of the pleasure principle and narcissism allows for acting out of concern for others; and his critique of the cultural superego is grounded in an ethic informed by ego rationality. Focusing throughout on Freud's seminal understanding of the self in conflict, Wallwork finds an ethical theory suggested by Freud's work that is naturalistic and grounded in a concept of human flourishing and regard for others and concerned with the common good, special relations and individual rights.

The Path of Reason Bruce A. Smith,2008 **A path to wellness in the educational and health systems** Lynn Preston,Wanda van der Merwe,2023-11-30 The Six Bricks initiative is a teaching and learning method that encourages focused engagement in the classroom by all learners from the foundation phase to adulthood. By using six simple colourful DUPLO bricks an element of play is introduced into a situation that inevitably leads to all individuals focusing and interacting. This is one of the major contributions to all teaching and learning disciplines and promotes the audience to learn with enjoyment, enthusiasm and concentration. Along with this communication is promoted sparking unimaginable creativity and creation. This book provides the reader with an alternative focus to the original educational application of the Six Bricks activities. This Six Bricks initiative focuses on the therapeutic application and processes in communities, schools and within individuals themselves. As each author has had an intimate connection with Six Bricks initiative they are all more than qualified to provide their autoethnographic reflections on this initiative which holds so much promise and excitement for learning and teaching. Therefore each author's contributions were original and personalised, providing a new field in the avenues of research in the South African context as South Africa does not have as yet much research on this topic. The methodology used in this qualitative research study was primarily from each author's perspective; thus their self-reflection and anecdotal personal experiences form the core of these chapters. Therefore this autoethnographic is a self-reflective form of writing which involves self-observation and reflective investigation in the context of ethnographic fieldwork and writing.

Your Child's Path Susan Engel, 2011-02-08 Take the worry out of parenting. These days, parenthood and anxiety seem to go hand in hand, especially given that it's harder than ever to raise happy, well-adjusted kids in our complicated world. And all parents long to figure out just who their child will become when he or she grows up. But with websites, media, and other parents providing an endless stream of advice about how to raise a perfect and perfectly happy child, how can you really know whom to trust? Susan Engel draws on her years of experience as a developmental psychologist, educator, and mother to help parents stop worrying about their young children's future and stop trying to control their formative years. Offering an intriguing new way of thinking about child development, she uses both personal and professional research to identify problematic behaviors that require intervention and gives reassurance about those that don't. Unlike many parenting experts, Engel encourages perspective and acceptance: rambunctious children will calm down as they find activities to absorb their intellectual energy; similarly, as shy kids grow, they will learn how to reach out to others on a one-to-one level. Engel provides straightforward guidance about issues of major concern for parents: happiness, intelligence, love, and morality, while blending stories about real children with relevant and up-to-the-minute social and clinical research. This absorbing narrative is an indispensable tool that will restore your sanity, help you sleep better, and put the joy back in child raising. *Century Path*, 1902

Every Good Path Andrew Errington, 2019-12-26 Andrew Errington brings the book of Proverbs into discussion with two significant accounts of the nature and foundation of practical reason in Christian ethics: those of Thomas Aquinas and Oliver O'Donovan. Aiming to move towards a framework for understanding Christian moral reasoning, this book develops a significant critique of aspects of Aquinas's thought and provides a major engagement with O'Donovan's moral theology. Errington argues that the way the Book of Proverbs conceives of wisdom presents an important challenge to the Western theological and philosophical tradition. Instead of a perfection of theoretical knowledge, wisdom in Proverbs is a practical knowledge of how to act well grounded in the reality of the world God has made. Discussing the complexities of practical reason, moral reasoning in Aquinas' world order, and deliberation in the work of O'Donovan and the place of created order in Christian Ethics, this volume is invaluable for scholars and general readers in reconfiguring moral theology.
