A. Melos, 2014-07-30 In a world of over the top villains hot cops mad scientists and witchcraft two individuals develop super powers and with the help of their friends they battle the evil forces that exist in Hub City New Jersey A humorous comic book type novel that takes place slightly over the edge of reality where science and magick yes magic with a K exist side by side Harry Manet and Lara Ladd are accidentally exposed to a scientific experiment and then to magick as well giving them super powers Being already out and proud homosexuals it just seemed natural to become out and proud superheroes as well Unfortunately in the satiric world in which they live super powers attract all sorts of villains ranging from homophobic psychotic psychotherapists to sorcerers searching for immortality to vengeful neglected wives and teenage delinquent wannabes Somehow they take it all in stride while learning to adapt to their super and magickal powers and coping with their personal relationships From the author of *Cool Mint Blue* and *Melba Ridge* this comic

Greig, 2014-03-24 Ontario Boys explores the preoccupation with boyhood in Ontario during the immediate postwar period 1945 1960 It argues that a traditional version of boyhood was being rejuvenated in response to a population fraught with uncertainty and suffering from insecurity instability and gender anxiety brought on by depression era and wartime disruptions in marital familial and labour relations as well as mass migration rapid postwar economic changes the emergence of the Cold War and the looming threat of atomic annihilation In this sociopolitical and cultural context concerned adults began to cast the fate of the postwar world onto children in particular boys In the decade and a half immediately following World War II the version of boyhood that became the ideal was one that stressed selflessness togetherness honesty fearlessness frank determination and emotional toughness It was thought that investing boys with this version of masculinity was essential if they were to grow into the kind of citizens capable of governing protecting and defending the nation and of course maintaining and regulating the social order Drawing on a wide variety of sources Ontario Boys demonstrates that although girls were expected and encouraged to internalize a special kind of citizenship as caregivers and educators of children and nurturers of men the gendered content and language employed indicated that active public citizenship and democracy was intended for boys An appropriate boyhood in the postwar period became if nothing else a metaphor for the survival of the nation *The Body and Senses in Martial Culture* H.L.L Loh, Lionel Loh Han Loong, 2016-04-30 This ethnographic study of a mixed martial arts gym in Thailand describes the everyday practices and lived experiences of martial art practitioners Through the lived realities and everyday experiences of these fighters this book seeks to examine why foreigners invest their time and money to train in martial arts in Thailand the linkages between the embodiment of martial arts and masculinity how foreign bodies consume martial arts and what they get out of it the sensory reconfiguration required of a fighter and the impact of transnational flows on bodily dispositions and knowledge The author argues that being

a successful fighter entails not only sensitized awareness and knowledge of one's body but also a reconfiguration of the senses
