Edelman, 2020-10-06 A validating new approach to the long term grieving process that explains why we feel stuck why that's normal and how shifting our perception of grief can help us grow from the New York Times bestselling author of *Motherless*

**Daughters** This is perhaps one of the most important books about grief ever written It finally dispels the myth that we are all supposed to get over the death of a loved one Claire Bidwell Smith author of *Anxiety The Missing Stage of Grief* Aren't you over it yet Anyone who has experienced a major loss in their past knows this question We've spent years fielding versions of it both explicit and implied from family colleagues acquaintances and friends We recognize the subtle cues the slight eyebrow lift the soft startled Oh That long ago from those who wonder how an event so far in the past can still occupy so much precious mental and emotional real estate Because of the common but false assumption that grief should be time limited too many of us believe we're grieving wrong when sadness suddenly resurges sometimes months or even years after a loss *The AfterGrief* explains that the death of a loved one isn't something most of us get over get past put down or move beyond Grief is not an emotion to pass through on the way to feeling better Instead grief is in constant motion it is tidal easily and often reactivated by memories and sensory events and is re-triggered as we experience life transitions anniversaries and other losses Whether we want it to or not grief gets folded into our developing identities where it informs our thoughts hopes expectations behaviors and fears and we inevitably carry it forward into everything that follows Drawing on her own encounters with the ripple effects of early loss as well as on interviews with dozens of researchers therapists and regular people who've been bereaved New York Times bestselling author Hope Edelman offers profound advice for reassessing loss and adjusting the stories we tell ourselves about its impact on our identities With guidance for reframing a story of loss finding equilibrium within it and even experiencing renewed growth and purpose in its wake she demonstrates that though grief is a lifelong process it doesn't have to be a lifelong struggle

**Threshold Dwellers in the Age of Global Pandemic** Eleazar S. Fernandez, 2022-05-19 So many lives have been lost now and the death toll still continues to rise because of the COVID 19 pandemic The poor and the marginalized not surprisingly have been disproportionately affected The pandemic has exposed the fault lines not only in our healthcare but also in our political and economic system a system driven by the pursuit of the bottom line profits If we are not only to survive but also thrive as a global society the challenge of the coronavirus pandemic must lead us to explore ways of thinking being and dwelling that promote our shared flourishing It is time to take personal stock about ourselves who we are where we have been and where we are heading What can the pandemic teach us about ourselves What is it revealing about us and our situation How shall we dwell together Do we want to wake up to a new and better tomorrow after this nighttime of pandemic That will largely depend on the way we respond now Who are we becoming in this time of pandemic What daily practices are we doing as embodiments of the new world we are anticipating
